## Negotiations continue with Sanctuary Co. on water, gift

By TIM FLEISCHER  
EDITOR-IN-CHIEF

Salado aldermen will again discuss three agreements with Sanctuary Development Company, LLC at their Sept. 24 meeting.

Those agreements include the donation agreement between the Village and Billie Hanks, Jr. and Salado Utility Company, Inc. for the donation of six acres of land and Water Quality Permit No. WQ0014898001; a Wastewater Service Agreement between the Village of Salado and Sanctuary Development Company, LLC. for the funding and constructing of improvements to the Village's wastewater collection, pumping, treatment, and disposal system, and the terms and conditions for retail wastewater services to the proposed 297 acre development to be constructed by Sanctuary Development Co.; and a Development Agreement between the Village of Salado and Sanctuary Development Company, LLC. for the terms and conditions of economic development incentives related to the proposed 297 acre development to be constructed by Sanctuary Development Co.

The board discussed at length the Wastewater Service Agreement and raised concerns about annexation (or the lack thereof) of The Sanctuary property, the fees and charges to be paid by users of the sewer system within The Sanctuary property, the location of the discharge line for the effluent of the wastewater treatment plant and other specifics about the use of the effluent by The Sanctuary.

Robert Sulaski has told aldermen that without a Development Agreement that allows The Sanctuary Development Company to develop the 297 acres "the way that we want to," that the property will not request annexation. Aldermen considered and discussed earlier this month the Donation Agreement and the Wastewater Services Agreement separate from any discussions of annexation.

In prior language, the two agreements included language about the donation being voided without approval of the Development Agreement, Economic Development Agreement and a Public Improvement District Agreement.

Aldermen have expressed worry that without annexation as part of the Wastewater Agreement, the Village could find itself serving the Sanctuary property as sewer customers without having the property coming into the city limits and adding to the tax base.

This would contradict an earlier action by the board of aldermen. "Already as a council," Alderman Frank Coachman

said, "we voted before we did a bond that the only way you can connect to the system is to be brought into the Village."

Further than that, the agreement states that the Sanctuary customers would be charged the same rates as if they were in the city limits.

"And they don't have to annex for up to 45 years," Alderman Fred Brown said.

The wastewater agreement includes the free "use" of the effluent from the wastewater treatment plant for the Sanctuary Development Company. This free use could be for up to 45 years, according to the agreement language. This did not set well with aldermen who apparently favor it for the first period of time for a Public Improvement District (15 years).

Aldermen also favor The Sanctuary Development Company paying for the extension of the discharge line from the plant to the discharge point on the south end of the property. This cost is estimated at \$495,000.

Some on the board have expressed a reluctance of the Village assuming the maintenance and operations costs of the Sanctuary's system for the effluent usage.

These are some of the conflicts to be resolved before aldermen are willing to sign and execute any agreements with The Sanctuary Development Co.

The Village also must consider the proposed Master Development Agreement in which The Sanctuary proposes the following developments and density units: Commercial (e.g. office, retail, restaurants, etc.), 515,000 Heated Square Feet (HSF), estimated at 350 Density Units (D.U.); Entertainment Venue (performing arts), 40,000 HSF, 20 D.U.; Lodging, 355 Rooms (keys), 177 D.U.; Multi-Family (multi-story, including senior housing, rental), 575 units, 431 D.U. Multi-Family (for sale, including condos, townhomes and duplexes), 130 Units, 97.5 D.U.; Single Family (for sale), 364 Units, 364 D.U. This totals approximately 1,450 D.U., depending upon the mixture of uses for the 515,000 commercial square feet. A D.U. uses approximately 220 gallons per day for wastewater estimates. At this figure, the total usage of wastewater per day would be more than 300,000 gallons per day.

The Master Development Agreement includes Land Use, Public Improvement District, Annexation, Open Space, Parks, Master Associations, Phased Development and other sections for a document of 32 pages.

### House lost to blaze

Firefighters from Salado, Belton, Holland and Stillhouse responded to a house fire at 3781 Royal Street on Sept. 17. By the time firefighters arrived, the house was almost fully engulfed in flames. Bell County Fire Marshal's office has investigated the cause of the fire as arson. An arrest warrant was issued in connection with the blaze for Roy Salmon.

## Arrest warrant issued in connection with house fire on Royal Street

By TIM FLEISCHER  
EDITOR-IN-CHIEF

Bell County Fire Marshal Steve Casey will present an arson case to the Bell County District Attorney's office after a structure fire at 3781 Royal Street engulfed a home on Sept. 17.

An arrest warrant was issued for Roy Salmon in connection with the blaze.

As of press-time on

Sept. 22, Salmon was still in Scott & White Hospital under observation, according to Casey.

"When he is released from the hospital, he will be arrested in this case," Casey said, adding that bond has been set at \$100,000.

Firefighters from Salado Volunteer Fire Department, as well as Belton, Holland and Stillhouse, responded to the call about

noon on Sept. 17.

Fire Marshal Casey reported that accelerant was observed at multiple locations on the scene. Canine units were brought in after the scene cooled down to confirm the use of the accelerants.

One man was transported to the hospital after being taken out of the house by SVFD Chief Shane Berrier.

The man suffered from

smoke inhalation and collapsed before he could escape out of the house via a window.

By the time units arrived on the scene, the two-story wooden structure was engulfed in flames. The building was totally lost to the blaze.

The fire spread to a car parked at the scene and spots of grass also caught fire but were eventually brought under control.

## Residents have chance to turn in their out-of-date prescription drugs

Salado Police Department will participate in the 10th National Prescription Drug Take-Back initiative 10 a.m.-2 p.m. Sept. 26.

According to Salado Police Chief Jack Hensley, local residents can return their unwanted, unneeded, or expired prescription drugs for safe disposal.

Police will accept the prescription drugs at the

Salado Police Department located just north of the Village Municipal Building.

The National Prescription Drug Take-Back addresses a vital public safety and public health issue.

Many Americans are not aware that medicines that languish in home cabinets are highly susceptible to diversion, misuse,

and abuse.

Rates of prescription drug abuse in the U.S. are at alarming rates, as are the number of accidental poisonings and overdoses due to these drugs.

Studies show that many abused prescription drugs are obtained from family and friends, including from the home medicine cabinet.

In addition, many Americans do not know how to properly dispose of their unused medicine, often flushing them down the toilet or throwing them away – both potential safety and health hazards.

In the previous Take-Back events nationwide from 2010-2014, 4,823,251 pounds, or 2,411 tons of drugs were collected.

## Village set to approve budget, adopt 33.95¢ tax rate Sept. 24

Salado aldermen, at their Sept. 24 meeting, will adopt the Village budget for 2015-16 and set a tax rate of \$0.3395 per \$100 evaluation.

The board will take the action following public hearings on Sept. 10 and Sept. 15 on the proposed tax rate and Sept. 15 on the proposed budget.

The total budget is a small deficit budget of \$10,984,959 in total revenues and \$10,969,324 in expenditures. The vast majority of the proposed budget is for sewer expenses

and revenues.

The proposed general operating budget for 2015-16 is much smaller than the 2014-15 adopted budget in terms of expenses. The proposed 2015-16 general operating budget is \$1,056,954 in expenses with \$1,057,500 in revenues.

The hotel/motel budget is being increased beyond the proposed \$256,810 in expenditures by some \$50,000 at the request made of aldermen at their Sept. 17 meeting. At that meeting, the board di-

rected City Manager Kim Foutz to add \$50,000 from the hotel/motel fund balance into the budget.

"We have to bring more people into town," Alderman Fred Brown said at that time.

If the board adopts the increased hotel motel budget, it would increase the overall budget to \$11,019,324 in expenses. This would be done with no further increase on the proposed property tax rate.

Once a municipality publishes its proposed tax

rate, it may not adopt a rate that is higher than the published rate. It may adopt a rate that is lower than the published rate.

The proposed \$0.3395 per \$100 valuation property tax rate is just below the threshold that could trigger a rollback election petition.

It increases the maintenance and operation tax rate from \$0.181 per \$100 valuation to \$0.1999 per \$100 valuation and establishes a debt service tax rate of \$0.1396 per \$100 valuation.

An Open Exchange of Ideas

## Biden Being Biden

While Hillary Clinton's team of consultants is locked in a room somewhere trying to figure out how she can project authenticity, Joe Biden is out doing it.

The vice president's recent interview on "The Late Show With Stephen Colbert" was compellingly human, as Biden talked of the tragic loss of his son Beau and his decision whether or not to make a late entry into the Democratic presidential race.

It's rare for someone who has been at the pinnacle of our politics for decades to get a second look. But Biden's latest family tragedy (he lost his first wife and a daughter to a car accident in the 1970s) means that the vice president is viewed through a prism of sympathy, as a grieving father rather than just another politician. And Hillary's struggles, especially her woodenness, put an accent on Biden's let-it-all-hang-out, true-to-his-self personality.

You can disagree with Biden, you can mock him, you can cringe at his mis-cues -- but it is impossible not to like him. Hillary's team can come up with the best, most elaborate plan for her latest makeover (it will emphasize spontaneity, The New York

**Rich Lowry**

Times reports) and still not come close to matching the bizarre charm of Biden being Biden.

We are constantly assured by people around her that Hillary Clinton is "warm in private." Biden is warm in public. His performance swearing in new senators earlier this year was a nonstop Bidenesque spectacle of selfies, folksy comments and general crazy-uncle antics, some of dubious appropriateness.

Their public personas are captured in the story of two parades. One of the enduring moments of the Hillary campaign so far is of reporters being corralled in a roped-off pen to keep them away from the candidate during a small July Fourth parade in New Hampshire -- creating an instant metaphor of arrogance and control.

When Joe Biden showed up at a Pittsburgh Labor Day parade, he broke into a trot, eagerly bouncing from one side of the route to another, shaking hands, dispensing hugs and kissing babies. Low energy, in Donald Trump's

signature phrase, this was not. Biden was a joyous retail campaigner in his element.

On paper, Biden is hardly a natural match for the populist, anti-establishment mood. He first got elected to the Senate in 1972, a year after Florida Sen. Marco Rubio was born. His resume includes 17 years as chairman or ranking member of the Senate Judiciary Committee, and 12 as chairman or ranking member of the Senate Foreign Relations Committee. This is a resume for a gold watch, not for a late-developing insurgent president campaign.

Yet Biden is a practiced and, unfortunately, fairly effective demagogue. He can denounce the rich with the best of them.

If he gets in, he will immediately be evaluated by a different standard. He'll be an actual candidate rather than the intriguing potential new entry. He'll be the old white guy trying to "stop history." But he'll also be a breath of fresh air in a Democratic race that was supposed to be the stultifying march to the nomination by one of the dullest politicians of our time.

## Chicago's Taxpayer-Funded Ode to Robber Barons

THE PARK SERVICE IS SPONSORING A NATIONAL MONUMENT ON THE SITE OF AN AUTOCRATIC OLD COMPANY TOWN

### Jim Hightower

History, as the old adage goes, is written by the winners. Even though many "winners" are losers as human beings.

For a clear example of this irony, check out the new national monument to corporate greed created by our Park Service in Chicago. It's on the site of what had been Pullman, a company town created by the feudalistic 19th-century profiteer George Pullman. He amassed a fortune as a rail car manufacturer, infamously suppressing the wages of his 5,000 factory workers.

Yet Pullman considered himself a beneficent employer, having built a 600-acre town for the workforce and vaingloriously named the place for himself. It included houses he rented to workers, churches, schools, a bank, a library, and parks -- all owned by his company. ical Digitization Project/ Indeed, when officials announced this year that Pullman's town was becoming an honored part of America's park system, officials attested to his generosity by hailing it as a place he created "to provide his employees a good life."

Back in the day, however, Pullman's workers were less charmed. He ruled the burg as autocratically as he did his factories. No saloons or "agitators" were allowed, nor did he allow any public speeches, town meetings, independent newspapers, or even open discussions.

Here's how one resentful resident summed up the surreal feel of the place: "We are born in a Pullman house. We are fed from a Pullman

shop, taught in a Pullman school, catechized in the Pullman church, and when we die, we shall be buried in a Pullman cemetery and go to Pullman hell."

In 1894, the workers got Pullman's hell on Earth when he drastically cut their wages but refused to lower their rent. He'd guaranteed a 6 percent return to the wealthy investors who financed the town, he explained -- and their needs came first.

Now, 120 years later, we taxpayers are financing a monument to this loser's greed?

## Save Historic Lampasas River Bridge

**To the Editor:**

It's just an old bridge... but it's a special one that spans the Lampasas River on the southbound access road between Shanklin and Tahuaya Roads. Until recently, I believed that saving it was the major reason the current IH 35 renovation gravitated to the east. Now I am told the bridge is scheduled for demolition. Constructed in 1935 under a National Recovery Highway project that was to relocate SH2 (Later US 81), it carried both directions of the main traffic until 1956 when the "new" IH 35 mainline bridges were built.

In making their cursory and questionably comprehensive evaluations of historic structures, even TXDOT's contracted "consultants" recognized the 429 foot bridge's unique structure and its engineering significance, noting that "it represents an innovative design response to a difficult site crossing, and is only one of three known examples of a two-girder span configuration in Texas. The bridge has retained its integrity of design, materials, workmanship, and sufficient integrity of location, setting, feeling, and association...therefore, it is eligible for inclusion in the National Registry of Historic Places."

The old bridge has withstood floods that destroyed all but one of the earlier cast metal bridges on the Lampasas, and it likely saved the ancient toll bridge immediately downstream. In the 1940s it was part of a highway system where a pedestrian in military garb could scarcely raise his thumb before a motorist stopped to offer a ride. Of course, that same hitch hiker was seldom allowed to pay for his cup of cafe coffee and slightly less often a meal. Yes, those were different times - the media did not depersonalize those in the military by calling them "troops". To folks like my

grandmother they were "our soljer boys" who reminded her that her own uniformed sons might be in the same situation somewhere. Those were also different economic times: The bridge's destruction will likely exceed its \$53,000 cost - and its replacement price almost unbelievable. Some will ask, "Why not destroy the old bridge?" A legitimate response might be, "Now that it just carries one-way traffic, and the river is dammed, why destroy it?"

**To the Editor:**

I would like to commend our Village Mayor and Board of Aldermen for protecting the Village of Salado's interests, rights and reputation.

Reading the *Salado Village Voice* of Sept. 17 and the *Temple Telegram* of Sept. 19, I am convinced they are holding tight on the rights and wishes of the people of Salado. It appears Sanctuary is trying to get a deal of little or no cost now and no tax money for years. Wouldn't a lot of developers like that kind of deal?

Please hold the line for Salado

**To the Editor**

It's there! Have you noticed it? Truly, the ONE bright spot on IH35 these days - just between the

Shanklin Road and Loop 121 exits in Belton is the awesome American flag flying overhead for everyone traveling through the construction area to see.

After some internet searching and several phone calls, I finally discovered the flag is flying from a crane belonging to Gulf Coast Crane Services. After several more attempts, I was able to reach and speak to J. R., the construction foreman who hung the flag to express my appreciation for this display of American patriotism. He was a polite young man who downplayed this gesture. I

assured him that I was not the only citizen who has taken notice, even though I was the first one to (according to J. R.) actually track him down and tell him. It made his day and mine, too!

If seeing our American flag proudly flying on your journey up and down IH35 warms your heart as much as it does mine each time you drive by and you would like to express your appreciation to J. R. as well, you may contact me (254/947-3652) and I'll pass on his phone number to you.

May God not give up on this great nation of ours. Have a blessed day, one and all.

## Saint Stephen Catholic Church dedicates new building Sept. 26

Bishop Joe S. Vásquez of the Catholic Diocese of Austin will be in Salado on September 26 to dedicate the new Saint Stephen Catholic Church. The dedication will be at 10 a.m. Sept. 26, at the church, 601 FM 2268. The \$1.7 million project at the church campus along Farm to Market 2268 will accommodate the growing parish, which now totals more than 220 families. The new church seats 400.

"The design goal has been for beauty and noble simplicity, and we believe we have achieved that goal," Father Aloysius Nzekwe said. The new building is in the Romanesque style of architecture with stained glass windows, arches, pews with kneelers and statues. The overall design is intended to preserve a sense of community, church officials said. "Like the churches of old,

every part of this building tells an inspiring story, incorporating the past and present," said Glenn Pritchett, the church's director of development. Saint Stephen also has a fully developed Spanish language ministry and offers one of its Sunday masses in Spanish. To learn more about the church and see a 3-D video flythrough of the project, go to: [www.saintstephenchurch.org](http://www.saintstephenchurch.org)

## Little Library to be dedicated Sept. 27

St. Joseph's Episcopal Church will dedicate its new Little Free Library at 11 a.m. Sept. 27.

The Little Free Library is located beside the bell tower that Tim Brown constructed at the St. Joseph's Church on North Main Street.

A Little Free Library is a small cupboard of books placed in a safe, prominent outdoor location. The cupboard is available to anyone who wants to stop by to pick up a book. People are encouraged to take a book, to leave a book, to bring a book or return the book before borrowing more from the small space.

"When Doug and I were living on our son's little ranch in Pidcoke,

we were living outside of a library district," stated Pam Nelson, who has established the Little Free Library here. "I had heard of the 'unserved' in library science classes and in my services on a committee at the Illinois State Library."

But now, she was part of the unserved. "We could go to libraries and use their services," she explained, "but we could not check out books."

While this may not mean much to adults who have their own libraries, "it is very important for literacy development of young people, people who are becoming literate in a second language, as well as for lifelong literacy development," according to Nelson.

The Little Free Library is located beside the bell tower at the St. Joseph's Church on North Main Street.

to cap a 65 yard drive with 11:54 left in the first half.

Four minutes later, Jackie Nichols threw to Patrick Hernandez for a 22 yard touchdown and a 21-0 lead for the Bees.

Nichols added a touchdown on the ground with 4:26 left in the first half, scoring from the Salado four yard line.

Underwood scored his second touchdown of the game on a five yard run with 2:12 left in the half. Preston Secrest kicked his fifth extra point for the 35-0 lead.

The Bees recovered a fumble on the ensuing kickoff near midfield to

set up Academy's final score. On a fourth and nine to go, Secrest kicked a 37 yard field goal with 29 seconds left in the half for the final lead of 38-0.

The Eagles offense struggled in both aspects of the game. Due to sacks and fumbles, the Eagles had negative yards rushing and just 38 yards passing. Salado had 11 yards total offense in the game.

Academy had 323 yards offense, most of it from a pounding ground game that saw Cody Martinez pounded out 114 yards, including a long run of 56 yards.

The Eagles defense

forced Academy to punt twice and turn the ball over on downs twice in the second half.

Kaden Smein intercepted a Jackie Nichols pass and returned it 23 yards for one of the few bright spots in the game for Salado.

Drew Dobbins returned four kicks for 101 total yards, including one for 45 yards. Jake Harvey returned a kick for 40 yards.

one. You can establish an extra diamond trick, but that will bring you to only eight tricks. Sometime later, it dawns on you that you misplayed the hand. Not only that, but

making nine tricks wasn't even difficult. In fact, it was ridiculously simple. All you had to do, after winning the heart at trick two, was lead the king of spades and overtake it with dummy's ace. You would then continue spades, forcing out the queen, and thereby assure nine tricks consisting of four spades, two hearts, two diamonds and a club. It might seem at first blush that playing the king and ace of spades on the same trick is a wild extravagance. But it's the kind of extravagance you can readily afford, since it is the only way to assure the contract. (c) 2015 King Features Synd., Inc.

**BEER-GLAZED SALMON WITH ROASTED MUSHROOMS**

Serves 4

Stout beers have a hearty molasses flavor that intensifies when the beer is reduced. That sweetness is a perfect complement to rich salmon, especially when paired with the woody aroma of roasted mushrooms.

Ingredients:

- 2 pounds mixed mushrooms (such as shiitake, cremini or oyster), thickly sliced
- 2 shallots, sliced
- 5 sprigs fresh thyme
- 2 tablespoons extra-virgin olive oil
- 1/2 teaspoon coarse sea salt, divided
- 1/2 teaspoon ground black pepper, divided
- 3/4 cup stout beer
- 2 tablespoons firmly packed light brown sugar
- 1 tablespoon Dijon mustard
- 4 skinless, boneless salmon fillets

Method:

Preheat the oven to 400°F. In a large bowl, combine mushrooms, shallots and thyme sprigs. Drizzle with oil, season with 1/4 teaspoon of the salt and 1/4 teaspoon of the pepper and toss to combine. Arrange mushrooms in a single layer on a large rimmed baking sheet. Roast, stirring 2 or 3 times, until nicely browned, about 45 minutes. Let cool slightly.

Meanwhile, in a small heavy saucepan, stir together beer, brown sugar and mustard and bring to a boil. Reduce heat and simmer until mixture just starts to thicken, 5 to 8 minutes. Remove from heat and set glaze aside. (Reserve all but 1/4 cup of the glaze for serving.)

Pat fish dry and season with remaining 1/4 teaspoon salt and 1/4 teaspoon pepper. Place skin-side down in a large baking dish. Toss mushrooms with 2 tablespoons of the glaze and spoon them around fish. Brush fish with additional 2 tablespoons of the glaze. Roast until fish is just cooked through and flakes easily, 10 to 12 minutes. Serve each piece of fish with a generous portion of mushrooms and reserved glaze on the side.

**BUFFALO CAULIFLOWER BITES**

Serves 6

Here are satisfying vegan munchies that replicate the flavors of tailgating favorite Buffalo wings. The cauliflower is grilled or oven-roasted until browned and nutty, then tossed with a tangy sauce that can be as spicy as you like.

Ingredients:

- 1 head cauliflower, broken into small florets
- 1/4 cup cider vinegar
- 1/4 cup sweet paprika
- 1 tablespoon garlic powder
- 1/2 teaspoon smoked paprika
- 1/4 teaspoon cayenne pepper, or to taste
- 1/8 teaspoon fine sea salt

Method:

Preheat the oven to 450°F or prepare a grill for medium heat cooking. Roast cauliflower on a parchment-paper-lined baking sheet or place it on a grill rack and cook, turning occasionally, until browned and tender, 10 to 15 minutes.

Meanwhile, whisk vinegar, sweet paprika, garlic powder, smoked paprika, cayenne, salt and 3 tablespoons water together in a large bowl. Taste the sauce; if you'd like it hotter, add a bit more cayenne. Toss the cauliflower in the sauce until well coated and transfer to a platter.

# Salado Volunteer Fire Department Report Sept. 14-19

Sept. 14  
6:46-6:59 p.m., 283 SB. Out to assist Salado Police Department with traffic from 7-vehicles blowing tires out from a board laying in roadway. Arrived on scene and slowed traffic down. Wreckers arrived on scene and removed all vehicle from roadway. Once roadway was clear all units cleared. 2 units, 3 personnel.

Sept. 17  
11:49 a.m.- 7:44 p.m., Blackberry and Royal St. Out to a grassfire in the area of Blackberry Rd. and Royal Street. Arrived on scene to find the fire off of Royal Street with gate locked. A passerby had a pair of bolt cutters and we took and cut chain to make access. Once we made access I found a large 2-story structure about 3/4 fully involved. I notified all units that it was a structure not a grass fire and had dispatch get Holland, Belton, and Stillhouse Fire Department en route for mutual aide. I started walking around residence and hat to open another gate that was connected to a yard fence that went completely around the house. As I was accessing I heard a yell. Unsure what it was, there were a lot of animals around the house but I kept hearing it every once in a while. I finally found the noise to be a male laying on the porch outside of some windows behind the railing that went around the porch. The male was just laying and very sweaty. He could not move, I grabbed him under the arms and drug him over the railing all the way out to the yard fence. A neighbor met me at the fence and I had him get a pair of pliers so we could cut the fence to get the patient away from the fire, it was getting hotter and hotter and we got the fence cut. Neighbor helped me drag the patient out into a pasture far enough away to get away from the heat for a little bit. SVFD Engine arrived on scene and pulled a 1 3/4 preconnect and started attack on fire but was unsuccessful. The fire was just too big and hot to be able to save any of it. Belton Fire Department arrived on scene and pulled another preconnect and helped keep the fire from spreading.
