## Salado High graduation June 4 Top two students announced

Salado High School Commencement Exercises will be at 10 a.m. June 4 at University of Mary Hardin Baylor's Maybom Campus Center.

### MORGAN BIRD

Morgan Bird is the Valedictorian of Salado High School for the Class of 2016.

She will attend Duke University in the fall, after graduating as Valedictorian of Salado High School with a final GPA of 110.68679.

She is the daughter of Drs. Erin and Kim Bird. She has attended Salado schools for nine years.

She has a younger brother, Andrew, who is in fifth grade.

Morgan was active in UIL Academics and Athletics. In Academics, she competed in Number Sense. In Calculator Applications, she was fourth in Region individually and second place team as a sophomore. As a junior, she was part of the first place team in Region and fourth place team in state.

As a senior, she competed in Number Sense, where her team was first in Region and fourth in State. She placed third in region in Calculator Applications and sixth in State as a senior.

She lettered on the varsity soccer team all four years, named to second team All-District her freshman year. As a sophomore, she was part of the bi-district qualifier and named to the All-Area team. As a junior, she was part of the Region IV runner-up and District champion team and was named to All-District and All-Area teams. Her senior year, she was named to the first team All-District and Defensive MVP. The Lady Eagles were State Semi-Finalists this year, winning District, Area and

Region.

Bird was a UCA All-American Cheerleader and was named Class President her freshman, sophomore and junior years.

She was also the president of the Mu Alpha Theta math club her senior year. Bird participated as a freshman in Salado Youth Leadership and the Student Senate Leadership class her sophomore and junior years. She has been a member of the Student Council all four years in High School.

She was a varsity Cross Country runner her senior year. She played volleyball her freshman year and was a manager her sophomore and junior years.

Bird was inducted into the National Honor Society as a sophomore and was a member of the Fellowship of Christian Athletes.

She was an AP Scholar, taking AP coursework in the following courses: World History, English Language & Composition, United States History, Calculus, Statistics, Government, Economics, Physics, Spanish and English Literature & Composition.

She was a student liaison to the Village of Salado board of aldermen her junior and senior years in high school and was an intern for Camp Invention her senior year. She also volunteers tutoring math and is active in her church youth group and volunteers as a crew leader for Vacation Bible School.

She will begin her studies in neuroscience at Duke University this fall. She plans on attending medical school and will pursue a career in reconstructive plastic surgery.

"My favorite memory from Salado High School," she said, "was playing in the 4A soccer state tournament this year with my

Valedictorian Morgan Bird

teammates, who are my best friends."

"Salado has taught me to never sell myself short and to always dream big," she adds. "My teachers, peers, teammates, family, and community have always supported me, which has made me the person I am today. With their support, I have learned that I can achieve anything I set my mind to."

"Mr. Cabaniss has been my math teacher for the past four years," she says of one of her favorite teachers in Salado, adding "He has allowed me to delve into mathematics and find a subject that I truly enjoy. Without his support and teaching, I would not be the student or UIL competitor that I am today. His teaching has inspired me to continue my education in the STEM field."

"Because he has instilled all of the qualities

of good leadership in each of his players, I was able to grow as a leader and teammate over the years," she said of soccer coach Michael Goos, for whom she played all four years in high school. "To be a captain on the Salado Soccer team, candidates must complete summer projects where they are required to do a project about what makes a good leader, whether that be to read a book, create a presentation for the team, etc. Because of what Goos has taught me about the characteristics that make a good leader throughout my past four years on his team, such as drive, collaboration, organization, listening, and humility, I have experienced much personal growth and will be able to transfer these important personal traits to my undergraduate education and later to my professional career."

Salutatorian Preston Kimbrough

### PRESTON KIMBROUGH

Preston Kimbrough, the son of "Jacqueline" Franks and Luke Franks, will graduate as SHS Salutatorian with a 108.23 GPA this week.

He is the older brother of Orrin Kimbrough, a junior at SHS, Tate Franks, a fourth grader and Reese Franks, a second grader.

Kimbrough will study engineering and computer science at Texas A&M.

He took a tough course schedule, taking Advance Placement whenever available in the following subjects: AP Government and Policies, AP Calculus, AP Macroeconomics, AP Statistics, AP United States History, AP World History, AP Physics (Algebra Based), AP English Literature, AP Spanish Language and AP English.

During his three years in Salado schools, Kimbrough has been the lead runner for the SHS cross

country team. He also ran distance races for the track team. He was Vice President of Mu Alpha Theta, a math club at SHS. He was also active in Escalera, a mentoring club to help young Hispanic children with their homework.

Kimbrough said that "winning cross country district meet both individually and as a team" is among his favorite memories, along with "learning 'the Calculus' in Mr. Cabaniss's class."

Coming to Salado in High School gave Kimbrough "The culture of a small town unfelt while living in a big city."

Kimbrough said he had two favorite teachers in Salado, "Mr. Cabaniss because he is a fair, honest man that so happens to teach my favorite subject" and "Coach Baird because she is energetic and motivating even at 5:30 in the morning."

## Salado schools get 4.5 stars from Smart Schools

Salado ISD is one of two school districts in Bell County to have a rating of 4.5 stars from the Texas Smart Schools Initiative. Troy ISD also had a rating of 4.5 stars.

The ratings were announced recently. State-wide, there were 44 five-star charter and public school districts in 2016. Another 104 districts earned 4.5 stars. Of the 44 five-star districts, 28 held that rank last year as well.

Salado ISD and Troy ISD both showed High Academic Progress and Very Low Spending per student to achieve the rating.

Texas school districts function in widely varying cost environments. Making direct financial comparisons among them would not be fair or appropriate. Instead, this study evaluates each district and campus against those identified as "fiscal peers", districts and campuses that operate in a similar cost environment, are of similar size and serve similar students. Many factors

### Texas Smart Schools Initiative rating of local school districts

DISTRICT	ACADEMIC PROGRESS	SPENDING PER STUDENT	SMART RATING
Academy ISD	High	Average spending	3.5 stars
Belton ISD	Average	High spending	2.5 stars
Buckholts ISD	Average	Low spending	3.5 stars
Copperas Cove ISD	High	Very high spending	2.5 stars
Holland ISD	High	Low spending	4.0 stars
Killeen ISD	High	Average spending	3.5 stars
Lampasas ISD	Average	High spending	2.5 stars
Rogers ISD	Average	High spending	2.5 stars
Rosebud-Lott ISD	Very low	Average spending	2.0 stars
Salado ISD	High	Very low spending	4.5 stars
Temple ISD	Very low	Average spending	2.0 stars
Troy ISD	High	Very low spending	4.5 stars

influence the costs that a district faces: Cost of Living (Comparable Wage Index), School District Size and Student Demographics.

Salado ISD showed High Academic Progress by scoring at or above 72 percentile of districts that were its Fiscal Peers.

To identify Fiscal Peers and Academic Progress, TXSmartSchools uses recognized statistical methods to create better, more

apples-to-apples, comparison measures for spending and academic growth.

Despite being the wealthiest school district in Bell County in terms of property wealth per student, Salado ISD spends the least amount per students, according to the TXSmartSchools data, with an adjusted amount of \$7,988 per student in spending.

The Salado High School campus, which

was ranked as a three-star campus, spends the most per student, \$8,113. The Junior High campus, also ranked as a three-star campus, spending \$5,761 per student. The Intermediate School, rated at four stars, spends \$4,832 per student. Bartlett ISD is the highest spending per student district in Bell County, with an adjusted amount of \$11,353.33 per student.

Former Texas Comp-

troller Susan Combs launched the Texas Smart Schools Initiative, a data integration platform that empowers Texas parents and educators to identify schools that are getting the "best bang for the buck" when it comes to spending and student performance. With expenses underwritten by funds remaining from Combs' various political campaigns, the data is offered to all, free of charge.

"Public education is one of the largest items in the state budget, so Texans need to know where their dollars are getting the highest return in terms of student performance," said Combs, a longtime transparency advocate. "With this platform, parents can find out which schools are beating expectations and educators can find peers whose success makes them worth emulating. It's truly an initiative that lends itself to the common good."

The program has its roots in the Financial Al-

location Study for Texas (FAST), a program created by the 81st Texas Legislature, which directed then-Comptroller Combs to "identify school districts and campuses that use resource allocation practices that contribute to high academic achievement and cost-effective operations." The resulting site and its innovative "FAST Tracker" tool proved useful to constituents across the state.

Texas Smart Schools, considered "FAST 2.0" by some observers, is the next generation of the concept, leveraging more complex data and enhanced processing to paint an even clearer picture of where educators and students are truly performing at the top of their class.

Persons interested in exploring the Texas Smart Schools Initiative and learning about the schools in their area, can visit [www.TXSmartSchools.com](http://www.TXSmartSchools.com).

Barclay McCort models some of the new fashions that will be presented at the style show

## Susan Marie's shop reopens with fashions featured at the ABWA June 16 style show and luncheon

Susan Marie's reopened May 27 after remodeling and new ownership, according to Alice Winders, the new manager. The new owner is Sally Volney who will be assisted by her daughter Courtney Stewart. Sally says she has been shopping here for many years and is excited to get Susan Marie's up and going again.

Susan Marie's will be part of the annual style show and benefit luncheon June 16 put on by the Chisholm Trail Chapter of the American Business Women. The event, to be held at The Venue, starts at 11 a.m. with Classic Catering of Temple providing the meal.

Stores participating in the style show include Christy's, Springhouse and Magnolia's. Tickets are \$30 and are available at the participating stores or by mailing the check to Chisholm Trail ABWA; c/o Barclay McCort; 406 Royal View Rd; Salado, TX 76571. No tickets will be sold after June 10.

The newly renovated Susan Marie's shop boast a comfortable area for the men to relax while the ladies shop.

Jane Wilmer, Alice Willson, Anne Marie Harwell, and Helen Clayton tour Hidden Glen, a Senior Living Community, during a field trip following the Ladies Auxiliary May 12 meeting.

An Open Exchange of Ideas

## Coming Soon: Roads, Creek and Organizational Efforts

Friends:  
Around the Village.

I-35 South is open with smooth travel. In two weeks, depending on the rain, I-35 North will open. In three weeks, Salado Plaza east/west connected. Then emphasis shifts to completing (1) bridges, (2) exit ramps, (3) frontage roads, (4) large tree/bush planters, and sprinkler systems, (5) the beautiful north south gate platforms/electricity, (6) bridge railing, and (7) end-of-construction-clean-up. Holding firm: Construction ending September/October 2016.

Dr. Steve Ervin, Bill Kinnison, and their committee planned a meaningful and inspiring Service honoring Veterans and their sacrifice. Unfortunately, the annual Memorial Service had to be cancelled due to weather. On behalf of the Village,

### Mayor Skip Blancett

thank you for your efforts and remembrance.

I will give a "State of Salado" address at 6:30 p.m. June 14 at the Salado Civic Center. It will be presented in power point with pictures: Sewer, Construction, Sanctuary, Annexation, Roads, Main Street project as well as our greatest challenges, and a glimpse into the future.

Whether a new resident or one with tenure, this evening message should not be missed. The meeting will be posted so the Aldermen/Lady can participate.

Discussing the Golf

Course July 4th events with Billy Helm is exciting. He and his directors are planning an outstanding celebration to include golfing, hot dogs /hamburgers, special music,, and a spectacular fire works display on July. 2 The Chamber is working with Billy in making this 4th of July the best ever. Invite your relatives and friends to attend.

Billy Helm plans to begin cleaning the low water crossing as soon as the rainy season passes. He has the permit and machinery to do a great job. Thank you, Billy.

Tablerock is organizing a Salado Writers Organization. For more information, call Jackie , 947-9205, or tablerock1@aol.com. A great opportunity to meet and share with other writers.

## The Trump-Sanders Two-Step

The upshot of the Bernie Sanders and Donald Trump phenomena is that both parties are moving to the left.

### Rich Lowry

ping back to the center on those issues in a general election because it would open her up to Sanders-like attacks from Donald Trump.

If the grass-roots movement that Sanders has built will pressure Democrats all the way to the Philadelphia convention and beyond, Trump has arguably done more to pull the country's politics portside. He has, for now, managed to do what the Democrats and the media have been attempting for most of the Obama era: to kill off the tea party as a national force.

By dividing it, eclipsing it and making its animating concerns of limited government and constitutionalism into afterthoughts, Trump has neutered a heretofore potent vehicle against Big Government. With or without Sanders, the Democrats were going to drift in a more progressive direction. It was far from inevitable, though, that the Republican Party would de-emphasize its opposition to growth in the size of government. That is entirely the doing of Trump.

The irony is that an era of Republican politics

characterized by insistence on doctrinal purity and anger at Beltway dealmaking is ending with Trump at the helm of the GOP. It's a little like the agitation of the French Revolution, all aimed at achieving more liberte, egalite, fraternite, concluding in the rule of Napoleon Bonaparte.

However ideologically indistinct Trump was during the primaries, he has gotten fuzzier since becoming the presumptive nominee. The lazy line on Donald Trump is that he's a far-right populist. Not at all. He's a centrist populist.

The key to moving the GOP to the center wasn't high-minded scolding about its tone and unreasonableness, as Jon Huntsman, John Kasich and Jeb Bush all attempted, but an extremely combative tone and a few signature unreasonable positions. Once Trump established his reputation as a bomb-thrower, it didn't matter that he was to the left of everyone else in the field.

Between Sanders moving Clinton further from the center and Trump moving the GOP toward it, the socialist and the mogul have forced American politics to take a collective step to the left.

Rich Lowry is editor of the National Review.(c) 2016 by King Features Synd., Inc.

## Reader reminds us to preserve our rights

To the Editor:

As we remembered those departed who sacrificed for our freedom on Memorial Day, ponder the very definition of freedom and whether it is eroding, particularly at the local level.

- Are our freedoms:
  - \* to think, act and speak independently;
  - \* to protect private property rights and one's self;
  - \* to minimize the imminent domain of government and eminent domain upon property owners;
  - \* to choose what to read and from whom, rather than being commanded by local government what to read and from whom;
  - \* to demand an open government and full disclosure;
  - \* to petition and dissent;
  - \* to hold government accountable to their words, promises, and actions;
  - \* to receive an equal

## Our Voice

Editorial Opinion

opportunity quality public education free from favoritism and nepotism;

- \* of public input and diversity of inclusion and ideas in governing body decision making;
- \* from discrimination;
- \* to be represented with taxation (developers are not taxed by the Village but they are very well represented by our elected officials);
- \* to choose what and who to believe rather than being told what and who to believe; and
- \* against retaliation from government ...compromised?

To the final point, there are far too many Salado citizens, parents and business owners who have experienced or expressed fear of retaliation from

their elected and salaried public officials (and even the chamber) for taking any position that differs from their taxpayer funded public institutions - code/rule enforcement, permitting, grade and extracurricular participation retribution in school, retribution in the workplace, or spreading malicious rumors about private citizens - so they remain silent....the opposite of the liberty for which our heroes in uniform fought.

While last weekend, we were reflective of the sacrifice made of those no longer with us, it's up to the living to preserve the freedoms for which the deceased sacrificed themselves.

Respectfully,  
Brian Sunshine

## Catholic Charities respond to Central Texas Flooding

Catholic Charities of Central Texas deployed their Disaster Response team to help families in need after flooding and tornados damaged homes and businesses throughout their 25-county service area in Central Texas. Catholic Charities is working with local officials to assess where and what is needed in each area. At this time, areas of concern are Bastrop,

Brazos, Caldwell, Fayette, Lee and Travis counties. With more rains expected throughout the week, Catholic Charities is preparing for the situation in each area to change rapidly. Individuals in Central Texas needing help can call the Catholic Charities Disaster Hotline at 512-766-7111. Catholic Charities is

asking for monetary donations to support immediate and long-term recovery needs for victims across their service region. Financial gifts will allow the agency to help families with pressing needs, such as food, clothing and emergency shelter. Donations can be given by calling 512-651-6132 or visiting [www.ccctx.org/donate](http://www.ccctx.org/donate). Other ways to help,

such as volunteers or collections of specific items, will be posted as needed. "Once again, our neighbors here in Central Texas need help to recover from damaging flooding and tornados," says Executive Director Sara Ramirez. "Once again, Catholic Charities stands ready to bring comfort and relief to those affected by these unfortunate events."

## Central Texas Food Bank formerly Capital Area Food Bank of Texas doubles capacity to serve

On June 1, the Capital Area Food Bank of Texas will officially become the Central Texas Food Bank, a change that emphasizes the organization's commitment to serving everyone in its vast 21-county service territory. With the new name comes a new logo and color palette designed to illustrate the

Food Bank's emphasis on distributing the freshest and healthiest food possible. The rebranding coincides with the Food Bank's mid-June move into its new 135,000 square foot facility that will more than double its capacity to serve the growing need for hunger relief in Central Texas.

The Food Bank was founded in 1981 by a small group of Austinites who recognized the need for food assistance in the area. In that first year, the Food Bank distributed just 330,000 pounds of food - most of it canned goods, beans, rice and peanut butter. Since then, the organization has grown from serving just Austin to a 21 county territory that's twice the size of Massachusetts and home to over 470,000 children, seniors and adults facing hunger. Last year the Food Bank distributed almost 34 million pounds of food, one-third of which was fresh produce, yet still fell short of meeting demand by an estimated 30%.

Center. The new facility features 2.5 times the dry storage space, seven times the refrigeration and freezer capacity, a commercial kitchen and 15 loading docks - up from just two in the current building. "Our increased capacity comes at a crucial time," said Perret. "As the population of Central Texas continues to swell, so do the challenges faced by many of our neighbors - challenges that often force them to make difficult choices between paying rent, buying medication or putting food on the table. This new facility will be a big step in helping us close the hunger gap."

"The name change underscores our commitment to serving everyone in our 19,000 square mile service territory," said Hank Perret, President and CEO of the Central Texas Food Bank. "With the help of our nearly 250 Partner Agencies, we are on the front lines of hunger relief in Central Texas from San Saba to Fairfield and from Waco to Luling. And our new stylized carrot logo illustrates our emphasis on distributing the freshest and healthiest food possible."

ABOUT THE CENTRAL TEXAS FOOD BANK  
The mission of Central Texas Food Bank is to nourish hungry people and lead the community in ending hunger. Founded in 1981, the Food Bank provides food and grocery products through a network of nearly 300 Partner Agencies and nutrition programs, serving nearly 46,000 people every week. Headquartered in Austin, the Food Bank serves 21 counties in Central Texas, an area about twice the size of Massachusetts. For more information on the Food Bank and its programs, visit [www.central-texasfoodbank.org](http://www.central-texasfoodbank.org).

On June 20, the Food Bank will officially begin operating out of its new facility located at 6500 Metropolitan Drive in the Met

# The Strawberry Patch, Jim Ruesch addresses Ladies Auxiliary June 9

The Salado Ladies Auxiliary will conduct their monthly meeting on Thursday, June 9. The meeting will be at the Salado United Methodist Church Youth Activity Center located on 650 Royal Street. Coffee and light food will be served at 9:30 a.m. with the meeting commencing at 10 a.m.

According to Barbara Swarouth, Ladies Auxiliary Vice President of Programs, "we have dedicated the 2016 program focus on Salado Businesses. Each month the program speaker is from a Salado business, both new and established businesses. The goal is to inform Auxiliary members of local businesses and what they have to offer." The

June program will feature one of Salado's coffee shops, The Strawberry Patch. Jim Ruesch, owner of The Strawberry Patch, describes his business as "a unique specialty shop with a selection as big as Texas." Come and enjoy learning from Jim as he shares an overview of the quaint coffee shop - it's more than just coffee. . . . so much more! All Ladies Auxiliary members and guests are invited to attend.

The Salado Ladies Auxiliary strives to provide events and activities which enhance, improve and promote the community of Salado. The organization also offers programs and activities that are educational and

inspirational as well as social. Membership is open to anyone interested in volunteering their time and talent to promote organizational goals. Membership dues are \$15 and the Auxiliary meets the second Thursday of each month at the Salado United Methodist Church Youth Activity Center.

## Midwestern State University Honor Roll announces Dempsey to Dean's List

WICHITA FALLS, Texas. (May 26, 2016) - Midwestern State University recognized 1,046 honor students for the Spring 2016 semester. The President's Honor Roll included 353 students, the Provost's Honor Roll included 302 students and the Dean's Honor Roll included 391 students.

Sarah E Dempsey of Salado was named to the

# Saladoans Sibbitt and Weathersbee among Baylor University 2016 Grads

Baylor University conferred degrees on more than 2500 graduates during spring commencement exercises May 13-14 in the Ferrell Center on the Baylor campus. Baylor University is a private Christian university and a nationally ranked liberal arts and research institution.

Students from Salado who graduated this spring are Stephen Sibbitt, Master of Business Admin., Executive Masters of Business Administration and Casey Danielle Weathersbee, Bachelor of Arts, Journalism.

Chartered in 1845 by the Republic of Texas through the efforts of Baptist pioneers, Baylor is the oldest continually

operating University in Texas. Located in Waco, Baylor welcomes over 16,000 students from all 50 states and more than 80 countries to study a broad range of degrees among its 12 nationally recognized academic divisions. Baylor sponsors 19 varsity athletic teams and is a founding member of the Big 12 Conference.

# Cave Quest VBS held at Grace Baptist June 12-15

Grace Baptist Church Vacation Bible School is scheduled for June 12-15. The theme is "Cave Quest" this year. Splash night is Sunday, June 12 so children will need to wear

swim suits under their clothes and bring a towel. The time is 5 -7:30 Sunday and 6:15-7:30 Monday through Wednesday.

Call 947-5917 for more information.

# Texas National Gaurd 176th Engineer Brigade deploys to Middle East

On Saturday, June 4, at 5:30 p.m., the Texas Army National Guard will bid goodbye and good luck to the Headquarters and Headquarters Company of the 176th Engineer Brigade as they mobilize to the Middle East. The deployment ceremony will be held at Cowtown Coliseum in Fort Worth.

The Grand Prairie-based 176th Engineer Brigade Headquarters falls under the Domestic Operations Task Force of the Texas Military Department, headquartered in Austin. While deployed, the brigade's mission will be to provide engineer support and capabilities to maneuver units across the U.S. Central Command area of responsibility.

This Texas-based element will provide the command and control for engineer forces providing horizontal, vertical, fixed bridging and combat engineer capabilities throughout the region. Brigade

leaders and Guardsmen are motivated and excited for this opportunity to serve their nation.

"If an engineer brigade headquarters had the ability to choose their mission, this is the mission we would choose," said Col. Charles M. Schoening, 176th Engineer Brigade Commander. "We have a highly trained force that is motivated and prepared to answer the call."

The brigade headquarters is made up of approximately 135 Soldiers from throughout Texas, with the majority of them calling the greater Dallas-Fort Worth area home. While overseas, the headquarters will have command and control of about 1,700 Soldiers from a variety of Active Duty, National Guard and Army Reserve engineer elements.

Following some additional training, the brigade will deploy for overseas sometime this summer.

# Temple College honor list named locals

Thirteen students from Salado have been named to the Spring 2016 Honor Lists at Temple College:

### President's List:

Casey Daniell, Claire Manley and Russell Yonan.

To be named to the President's Honor List, a student must take at least nine semester credit hours and earn at least a 4.0 grade point average.

### Vice President's List:

Keirstin Bloom, Rebecca Carroll, Chelsea Ervi, Ryan Flanagan, William Grace, Teresita Grace,

Dean's List.

A student who completes a semester schedule of at least 12 semester hours in one semester with a grade point average of 3.50 to 3.74 and no grade lower than C will be included on the Dean's Honor Roll. The student cannot have semester grades of I, WF or NC.

Chelsea Hayes, Christian Masson, Zachary Robinson and Jaylee Sebek.

To be named to the Vice President's Honor List, a student must take at least nine semester credit hours and earn at least a 3.5 grade point average.

Temple College is a public, two-year college with locations in Temple, Taylor and Hutto. The college offers more than 60 certificate and degree programs, as well as dual credit courses for high school students. For more information, visit [www.templejc.edu](http://www.templejc.edu).

# UNT students from Salado named to Prez and Dean's list

The following University of North Texas student from Salado, Lorna Nicole Payne was named to the Dean's List for the 2016 spring semester.

To be named to the Dean's List, undergraduates must complete at least 12 academic hours with a grade point average of 3.5 to 3.9.

The following University of North Texas students from Salado, Rachael Danielle Piatt was named to the President's List for the 2016 spring semester.

To be named to the

President's List, undergraduates must complete at least 12 academic hours with a perfect grade point average of 4.0.

UNT is one of Texas' largest universities, offering 100 bachelor's, 83 master's and 37 doctoral degree programs. Many of these programs are nationally and internationally recognized.

*I urge, then, first of all, that requests, prayers, intercession and thanksgiving be made for everyone - for kings and all those in authority, that we may live peaceful and quiet lives in all godliness and holiness.*

## Eagles face #3 Sweeney

Salado Eagles face the #3 Sweeney Bulldogs in the Region IV finals, playing a best of three series this week.

The first game was played after presstime this week, but results will be posted online at salado-villagevoice.com. Game one was played at 7 p.m. June 1 at Mumford High School. Games two and three (if necessary) will also be played at Mumford High School. Game two will start at 5 p.m. June 3 and game three will start 30 minutes after the end of game two, if it is necessary to be played.

The Eagles beat Sinton in two close games to get to the Region IV final.

The top five teams in state are among the final eight teams remaining in the 4A playoffs, including #1 Abilene Wylie (29-3-1, 8-0), #2 Argyle (27-5, 9-1), #3 Sweeney (29-6-0, 10-0), #4 Robinson (26-3, 9-1) and #5 Pleasant Grove (26-5, 9-1). Godley (28-

3, 10-0) is ranked #8 in state, leaving just two of the eight Region finalists outside of the Texas High School Baseball Coaches May 19 top 10 rankings: Salado (27-11, 9-1) and Little Cypress-Mauriceville (24-10, 7-8).

Salado and Sweeney have faced one familiar opponent this season, both winning two out of the three games they played. Salado beat the Taylor Ducks 1-0 on April 8, lost 5-1 on April 26 and won the rubber match to determine the 25-4A championship 1-0. Sweeney beat the Ducks in the Area round of the playoffs. After losing the first game 2-1, Sweeney bounced back to thrash the Ducks 10-0 and 13-4 to advance.

Sweeney beat the Robstown Cottonpickers in three (3-1, 1-10, 8-2) to get to the Region IV Final. Robstown was ranked #7 in state at the time of the loss, ending their season at 29-7 and 12-2 in district.

The Bulldogs return six players from last year's 24-8-1, 8-2 Regional Quarter-finalist squad. Head Coach David Luster has two years' experience at the helm, earning 52 career wins.

Returning starters for the Bulldogs include Hayden Fails, senior outfielder and catcher. Fails batted .208 with 18 RBIs last year, earning third team All-State honors. Senior catcher and pitcher Shawn Kelley received All-State honorable mention. He hit .260 with 21 RBIs last year. Senior shortstop and pitcher Docy Erickson hit .318 last year with 18 RBIs. Senior infielder and pitcher Jacob Mathis also earned All-State honorable mention. He hit .323 and had 23 RBIs. Senior outfielder Dax McCleary batted .231 with 10 RBIs. Senior pitcher and outfielder Jonathan Svoboda was named the District pitcher of the year with 49 strikeouts. He also hit .328.

## Salado beats Sinton in 2 hand-wringing games in region semis

Sinton shortstop Jordan Martinez's error on a grounder by Garrett Lightfoot with runners at first and second that allowed Jake Harvey to score the walk-off run in the seventh inning of Salado's second game with the Sinton Pirates May 28, winning 5-4.

Earlier in the inning, Sinton loaded the bases, but could not score in the top of the seventh, going into the final three outs tied at 4-4.

Wilk led off the bottom of the inning with a double to deep left. The Pirates intentionally walked Chase Basham. Grant Taylor lined out to third to keep the runners from advancing. Lightfoot grounded to shortstop, but Martinez's errant throw to second allowed courtesy runner Harvey to round third and go home for the winning run.

Sinton took the early lead in the game, scoring two runs in the first. Lead-off batter CJ Zepeda walked and went to second on a sacrifice bunt by Mark Villareal. Brett Brown singled to center to score Zepeda and went to second on the throw. Brown stole third and scored on an error by Drew Dobbins to make the score 2-0.

Salado narrowed the lead with a run in the bottom of the first. Cody Wolf led-off the frame with a single. He went to third on a double by Dobbins and scored on a sacrifice fly to deep right by Jacob Wilk.

Wilk scored in the

three-run third for the Eagles. He hit a triple to deep right. Basham was hit by the pitcher. Grant Taylor grounded out to short, scoring Wilk and advancing Basham to second. Ryan Dunnahoo reached on an error by centerfielder Villareal that allowed both baserunners to score to give Salado a 4-2 lead.

Sinton added a run in the top of the fourth to narrow the lead to 3-4. Mike Mendez singled and advanced on a single by Aaron Hernandez. Mendez scored on a single by Zepeda.

The Pirates tied the game in the sixth on an unearned run. Mason Hopkins walked and moved to second on a sacrifice bunt. He went to third on a passed ball and scored on the throw of a groundout.

Both teams had seven hits, but Sinton had three errors, including the final fatal one. Wolf had three hits for the Eagles while Wilk had two hits, an RBI and a run.

Dobbins got the win on the mound for Salado, pitching into the seventh inning. He gave up seven hits and just two earned runs. He also struck out six batters for the Eagles. Peyton Kyburz pitched the final two outs.

Colten Collier got the loss for Sinton, pitching the entire game. He struck out two batters and gave up seven hits and two earned runs.

The Eagles beat Sinton 2-1 in eight innings May

27 to win the first game of the series.

Ryan Dunnahoo hit a triple to deep right. With one out, Phillip Ellis walked to put runners at the corners. Cody Wolf singled to right to score Dunnahoo and give Salado a 2-1 edge.

Salado put the Pirates out in the bottom of the eighth three up and three down. Wolf, who pitched the entire game, forced Jordan Martinez to hit a grounder to first baseman Preston Payne who flicked the ball to Wolf for the force out at first. Johnathon Carrillo grounded out to shortstop Jacob Wilk and Dustin Gallegos grounded out to second baseman Dunnahoo to end the game.

Sinton had the early lead in a defensive battle between the two pitchers. The Pirates scored in the second inning after Carrillo singled to left. After several pick-off attempts, Carrillo went to second on a pick-off and then stole third base. He scored on a passed ball before Wolf retired the side with two strikeouts.

Wolf got the win for Salado. He struck out nine batters and allowed just two hits. He walked four. Martinez got the loss for Sinton, pitching the entire game. He struck out six batters, but allowed seven hits and walked four batters.

Wilk led the squad with three hits while Dunnahoo had two hits. Wolf and Dobbins also recorded hits in the game.

## Salado High Academic squad brings home silver from UIL State

Salado High took second place at the UIL 4A State Academic Meet, earning 87 points. Argyle won the meet with 174 points.

Katie Kendall earned an individual state championship in Spelling and Vocabulary. Kayla Manning was second place in Spelling and Vocabulary.

Luke Miller won a state championship in Current Issues and Events, leading his team to win the contest as well. Team members included Luke Miller, Nathaniel Sunshine, Austyn Giacomozzi and Sydney Jarvis. Sunshine placed fifth individually.

Tim Lane took silver in Informative Speaking. He was third place in Lincoln Douglas Debate.

Morgan Bird was sixth place in Computer Applications.

Ellie Bragg was sixth place in News Writing.

Of the 106,722 district UIL Academic and One Act Play participants, about four percent qualify for state competition. This year, there were 4,590 state contestants at all levels of academic competitions.

Salado High School has one of the most successful UIL Academic programs in the state with nine UIL State Championships to its credit.

Tim Lane took silver in Informative Speaking and bronze in Lincoln Douglas Debate.

## Shakespeare's Comedy of Errors June 3 - 4

Salado's Tablerock Amphitheater is the setting for Shakespeare's play *The Comedy of Errors* 8 p.m. June 3-4.

Kelly Parker, Tablerock Board of Directors member, will direct *The Comedy of Errors*, one of Shakespeare's beloved comedies. Parker is the McLennan College Director of Theater in Waco and lives in Salado. The roles will be portrayed by college students from the

Central Texas area. The *Comedy of Errors*, one of Shakespeare's earliest and most farcical comedies, guides the audience through a slapstick romp with two sets of long lost twins, irrepressible mistaken identity, mischievous shenanigans, and romantic intrigue. Join in as two sets of brothers, both names Antipholus and Dromio, unknowingly cross paths in the bustling city of Ephesus leaving a slew of erroneous histrionics in their wake.

The cast and crew members of this farce will guide you on a merry chase, they are as follows: Tanner Coone as SOLINUS, Duke of Ephesus; Alexander Jay Alvarez as AEGEON, a Merchant of Syracuse; Alec Ehringer playing ANTIPHOLUS of Ephesus, Twin, son to Aegeon & Aemilia; Cody Beseda as ANTIPHOLUS of Syracuse, Twin, son to Aegeon & Aemilia; Cameron Gradel as DROMIO of Ephesus, Twin, attendant to Antipholus; Kailin Riley playing DROMIO of Syracuse, Twin, attendant to Antipholus; Jennifer Ringer as ADRIANA, Wife to Antipholus of Ephesus; Samantha Damon as LUCIANA, her Sister; Sara Westerfiled as LUCE, Servant to Adriana; Russell Hardy as BALHAZAR, a Merchant; Erik Anderson playing ANGELO, a Gold-

smith; Christopher Arnold playing MERCHANT, Friend to Antipholus of Syracuse; Mitchell Voorhies as A SECOND MERCHANT, to whom Angelo is a debtor; Lauren Hill as AEMILIA, Wife to Aegeon, an Abbess at Ephesus; Rowdy Dodd playing PINCH, a Schoolmaster and a Conjuror; Keele Halbert as SERVANT GIRL; Lacey Drew as A COURTEZAN; Hunter Allen as GAOLER; Lamec Rosas as GUARD; Erin Rose Morley is the Stage Manager; Darlisha Blaylock is the Technical Director.

Prices are: \$10 for an adult and \$5 for children 12 and under. The ticket office and concession stand will be open at 7 p.m., pre-show begins at 7:30 p.m. and the play begins at 8 p.m.

Tablerock Amphitheater is located at 409 Royal Street, one and one half blocks from Main Street in downtown Salado.

For directions and more information go to the Tablerock web site [www.tablerock.org](http://www.tablerock.org) For school and church groups of over 20 attendees contact Jackie Mills at (254) 947-9205.

Tickets may be purchased at the gate.

## Mark your calendars now for annual Salado Swirl

Several Salado shops will be wine stops for the Salado Swirl on July 8.

The Salado Chamber of Commerce/Tourism Bureau will host its annual Salado Swirl 6-10 p.m. July 8.

Experience and enjoy the wine offerings as you see, sniff, swirl, sniff, sip and savor!

Stops will have wine and food offerings that are pleasing to all culinary palettes. Trolley transportation is available between stops.

Many Salado business establishments expressed interest in participating as a wine stop and because of this extensive interest it was necessary to hold a lottery type drawing.

A neutral third party pulled out the names of the following businesses: Sirril Art Gallery at #1 Royal St.; The Red Cactus at #2 Rock Creek; Mud Pies Pottery at 18 N. Main Street; Antique Rose of Bell at 402 North Main Street; Salado Creek Antiques at 511 Stagecoach Road; and of course Salado's own local wineries--Salado Winery and Lone Star Winery.

Tickets are \$29.95 per person and you must be 21 or over to participate. Passports are provided and must be presented at Swirl locations.

Tickets are limited and must be purchased in advance at [www.salado-events.com](http://www.salado-events.com).

For further information please call the Salado Chamber/Tourism office at 254-947-5040 or visit [www.salado.com](http://www.salado.com)

What does the double mean?

Contract Bridge

By Steve Becker

West dealer. Neither side vulnerable.

Bridge hand layout showing North, South, West, and East hands with cards and bidding information.

Q-J of diamonds. It is easy to sympathize with West, who naturally was more inclined to lead a diamond from a solid suit than a heart from a broken suit.

But here West had no one to blame but himself. Once partners agree that a double in a given sequence -- such as the one here -- is lead-directing, the player on lead has no choice but to obey his partner's wishes.

Bridge is a partnership game. (c) 2016 King Features Syndicate, Inc.

The European Honey Bee (*Apis mellifera*) is a much-needed part of the eco-system.

**European Honey Bee (*Apis mellifera*)**

At the San Angelo Nature Center, we have a topic each month on which we focus. This month, it is on a type of insect that is often maligned due to its ability to cause injury and yet surprisingly beneficial.

The European Honey Bee (*Apis mellifera*) is a species that can be encountered almost worldwide, with the exception being the Antarctic region. In Texas, this Honey Bee occurs statewide, regardless of the myriad of climates and habitats that this state offers. This species was introduced to America by European set-

**Wild About Texas**  
 Michael Price

tlers around 1638.

Just as with other insects such as grasshoppers, ants, and butterflies, Honey Bees have three pairs of legs, as well as three body parts. The front body part is the head, and this is where the eyes, mandibles, and antennae are. This bee has two large eyes that are surrounded by three smaller ones. The antennae are used primarily to pick up smells and air movements. The second body part is the thorax, and it is in this region where the wings and legs are attached. The last body part is the abdomen, and it is in this area where the majority of the "inner-workings" of the bee occur. It is also the area that supports the bee's defensive stinger and venom sac. Once a bee has used this stinger, the bee will then die as it loses part of its abdomen contents in the process. The bee's body is covered with hair, and this is one of the characteristics that separate them from the closely related wasps. They are usually around one-half inch in total length.

The Honey Bee lives its life in a large family group in a beehive. Each beehive can have upwards of fifty-thousand individual bees. There are four types of bees in this family group, and each has a special

job unique from the other types. The largest type of bee is the Queen Bee. Each hive can have only one queen. Her job is to lay eggs, and what a job of this she does. A queen can lay up to three thousand eggs each day!

The second type of bee is the drones. These drones are the males (or fathers) of the hive. Their primary duty is to reproduce. There may be only a few hundred drones in each hive. The third type of bee is the worker bee. These are the backbone of the hive as they have more job responsibilities than the other types. They are all female, and they feed the babies (as well as the queen), they guard the nest, and they find nectar and pollen. Worker bees have pollen baskets on their legs that they utilize to carry the pollen from flowers back to the hive.

The last type of bee is the larvae. These larvae begin their life as a tiny egg laid in a cell made of wax. When they hatch, they look like small grubs and this is the part of the life cycle when they are known as larvae (plural for larva). As the larvae eat the food provided by the worker bees, they grow larger and become a pupa. The last step of this metamorphosis is when the adult bee crawls out of the

pupa.

The primary diet of the Honey Bee is sugary nectar and powdery pollen, both which are collected by the worker bees as they visit flowers. Individual bees may visit fifty or more flowers in one trip to and from the hive. This spreads pollen from one flower to another, assisting the flowers to make more seeds and fruits. A worker bee detects a flower and lands on it. It then collects nectar inside of the flower by sucking it up with its tongue as it combs the pollen into the pollen baskets on its legs and flies away either to the next flower or back to the hive.

Worker bees use two special dance routines to alert other bees where nectar is located. The first, known as the "round dance" is performed when the food is within one hundred and ten yards from the hive. The second is known as the "waggle dance", and this performance is utilized to communicate that the food is farther away. These dances can tell the other workers not only how far to go, but also which direction the food is.

Honey is utilized not only by the bees themselves, but also by humans. Uses include food, as well as medicinal purposes. More honey is made in China than any other country, followed by the United States.

## Are you signing up for a home security scam?

Tips to keep in mind when door-to-door sales representatives start knocking

WACO, Texas—If you live in a home, chances are you have talked to a sales representative eager to sell you cleaning supplies, cosmetics or magazine subscriptions. This summer, Better Business Bureau serving Central, Coastal, Southwest Texas and the Permian Basin advises you to be on guard the next time a sales representative knocks on your door.

During the spring and summer months, home security systems or alarm businesses hire traveling sales agents to go door-to-door, according to the Federal Trade Commission (FTC). In some cases, these sales representatives will use high-pressure or deceptive sales tactics to get potential customers to buy expensive home security systems or equipment.

According to the Texas Attorney General, under Texas law, a door-to-door seller must advise you verbally and in writing that you have a right to cancel the sale within three days. The sales representative must also give you a contract or receipt stating the date of the sale, the name and address of the merchant and a statement of your right to cancel the contract, which includes the address where you send your cancellation notice.

Unfortunately, scammers have also been known to pose as home security sales representatives. These scammers are after your personal and financial information, or

they may be casing your home for a potential burglary. Summer is an active time for this type of activity because many residents are home during the day to answer the door.

If a sales representative comes to your door, your BBB advises the following:

Know who you are buying from. Before you open your door or let anyone into your home, ask to see a photo ID, business card and some proof of the business they're representing. Also, ask for a physical address and for local references.

Do your research. Look up the business online and get references from your friends, family, neighbors or from the company's current clients. For a business you can trust, check out BBB's Accredited Business directory at [checkbbb.org](http://checkbbb.org).

Resist pressure to "buy now." One sign of a security system scam is a sales representative that may pressure their way into your home and then refuse to leave. Don't be pressured to take advantage of a time-sensitive offer, like "once in a lifetime" or "today only." Instead, do some comparison shopping and take time to decide whether you want the product being sold. Get written estimates. A reputable business won't try to sell you anything before completing a professional assessment of your needs and layout of your home. Ask plenty of questions, and find out

# White Grubs in Texas Turfgrass

White grubs are the larval stage of insects commonly known as May or June beetles (or Junebugs). Texas has almost 100 species of these beetles, most of which do not cause significant economic damage

to crops or horticultural plantings. A few species, however, commonly damage turfgrass and other cultivated plants.

White grubs, sometimes referred to as grubs, injure turf by

feeding on roots and other underground plant parts. Damaged areas within lawns lose vigor and turn brown. Severely damaged turf can be lifted by hand or rolled up from the ground like a carpet.

The most important turfgrass-infesting white grubs in Texas are the June beetle, *Phyllophaga crinita* and the southern masked chafer, *Cyclocephala lurida*. Warm season grasses like bermudagrass, zoysiagrass, St. Augustinegrass and buffalograss are attacked readily by both types of white grubs, with most lawn damage occurring during summer and fall months.

Cool season grasses such as the fescues, bluegrass and ryegrass are also susceptible to the June beetle and southern masked chafer, though such grasses tend to be attacked more frequently by a May beetle, *Phyllophaga congrua*. Damage from May beetles often appears in the spring and early summer, before injury from other white grubs becomes evident.

### Life Cycle

Most turfgrass-feeding white grubs in Texas, such as the June beetle and southern masked chafer, require 1 year completing their life cycle (a 2-year cycle is suspected in a portion of the grub populations in north Texas). The May beetle, *Phyllophaga congrua*, requires 2 years to develop. For simplicity, the following discussion will be limited to species with 1-year life cycles.

Once a year, in late spring or summer, adult beetles emerge from the soil to mate. Mated females then return to the soil to lay eggs. Within about two weeks the eggs hatch into small white grubs that feed on grass roots. The pupa, or intermediate stage between the larva and the adult, occurs the following spring and is the last immature phase of the insect's development cycle. Adults subsequently emerge from the pupal stage when environmental

conditions are favorable in early- to mid-summer. Most damage from white grubs occurs during mid-summer to early-fall when the larger larvae are actively feeding.

Adult. The adult stage of the various white grub species are heavy-bodied beetles, 1/2 to 5/8 inch long, brown, with long, spindly legs. The June beetle and southern masked chafer emerge from the soil and fly at night, usually after a significant rainfall or irrigation. Flight periods may last for several weeks, during which time mating and egg-laying occur. During flights, large numbers of adult beetles, primarily males, may be attracted to lighted windows or other lights at night. Females, being less active fliers, usually are less common around lighted areas than are males. For this reason, turning off outdoor lights during adult flight periods may not substantially reduce subsequent white grub damage. Heavy white grub infestations often can be found in areas with little or no outdoor lighting.

After mating, female beetles dig 2 to 5 inches into the soil to lay eggs. Each female can lay up to 30 to 40 eggs, which hatch in approximately two weeks.

Larva. White grub larvae are creamy white and C-shaped, with three pairs of legs. After hatching, the white grub passes through three larval life-stages, or instars. These instars are similar in appearance, except for their size. First- and second-instars each require about 3 weeks to develop to the next life-stage. The third-instar actively feeds until cool weather arrives. Third-instar larvae are responsible for most turfgrass damage due to their large size (1/2 to 1 inch-long) and voracious appetites. Feeding by large numbers of third-instar white grubs can quickly destroy turfgrass root systems, preventing efficient uptake of food and water. Damaged turf does not grow vigor-

ously and is extremely susceptible to drying out, especially in hot weather.

When cool weather arrives, white grubs become dormant until the following spring. During this dormant period white grubs do little or no feeding and cause little damage. Occasionally white grubs will be found in turfgrass areas that fail to green up in the spring; however, the damage is primarily the result of feeding that occurred the previous fall. Spring and winter treatments for white grubs with 1-year life cycles generally are ineffective in preventing turf damage.

Pupa. The pupal stage follows the third-instar and is the life stage during which the white grub transforms, or metamorphoses, into an adult beetle. The pupal stage does not consume food and does not move through the soil. This life stage occurs during the spring and lasts approximately 3 weeks. Pupae can be found in small earthen cells three to six inches below the soil surface. White grub treatments applied during the pupal life stage are both ineffective and unnecessary.

### Managing White Grubs

Knowing when you have a problem. White grub damage can be detected by the presence of irregular-shaped areas of weakened or dying grass in the lawn. Less-severely damaged turf lacks vigor and is more vulnerable to invasion by weeds. Depending on location within the state, damage may appear any time between the months of June and October. Turfgrass damaged by white grubs has a reduced root system and is easily pulled from the soil. Grubs should be readily found in the top few inches of soil, in the turfgrass root zone. Turfgrass usually recovers from white grub damage by fall or the following spring.

At least one turfgrass disease, Take-all Patch, can sometimes be mistaken for white grub dam-

age. Take-all Patch occurs most frequently in spring and early summer and can be distinguished by the rotted appearance of the roots. In contrast with white grub damage, dead spots caused by Take-all Patch may persist into the summer months.

Some Texas lawns never suffer white grub damage, while others are damaged year after year. If your lawn consistently dies out in patches during late summer and if you can verify that white grubs are the culprits, you may benefit from a preventative treatment. On the other hand, if you want to minimize your use of insecticides and don't mind sampling for white grubs. By confirming that you have white grubs before treating your yard, you can avoid spending money on grub control and reduce pesticide use.

Non-chemical controls. Several non-chemical treatments are available for controlling white grubs. Beneficial nematodes within the genera *Steinernema* and *Heterorhabditis* are tiny worms that attack white grubs and other soil inhabiting insects. These microscopic worms can be purchased in stores or through garden supply catalogs.

### Chemical control

Not all lawns, athletic fields, or golf courses require regular treatment for white grubs. Infestations of five to ten grubs per square foot is considered the threshold above which damage occurs, and though it is possible to sample for white grubs to determine whether treatment is needed, few people want to dig up areas to sample for these insects. Consequently, for turf that has high value or has a history of white grub damage, annual treatment may be justified.

Most of today's white grub preventative insecticides have relatively long persistence in the soil;

who will perform the installation and monitor the system. Some businesses subcontract work to a third party. Remember, don't let anyone who hasn't made an appointment into your home. If an estimation or installation needs to be done, call the business directly to make an appointment.

Know your rights. The Texas Business & Commerce Code states that you have three days to cancel a contract for goods or services sold to you, regardless of whether you have received the goods or ser-

vices. This "cooling-off rule" only applies to transactions made at someone's home or at a seller's temporary location. Keep your receipt or contract and a copy of your cancellation notice. Remember, you are not obligated to return goods to the seller until you have recovered either your money or your agreement to pay money.

ABOUT BBB®: For more than 100 years, Better Business Bureau has been helping people find businesses, brands and charities they can trust. In 2015, people turned to BBB more than 172 million times for BBB Business Reviews on more than 5.3 million businesses and Charity Reports on 11,000 charities, all available for free at [bbb.org](http://bbb.org). There are local, independent BBBs across the United States, Canada and Mexico, including BBB serving Central, Coastal, Southwest Texas and the Permian Basin, which serves 97 counties in Texas.

# Salado Volunteer Fire Department Report May 23-29

May 23  
 1:38-2:45 a.m., FM 2484 and 1670. Dispatched for a possible electric line down. Arrived on scene to find a voltage regulator with a blown fuse. Advised dispatch to call ONCOR for them to come look. ONCOR arrived on scene. 1 unit, 2 personnel.  
 1:29-2:04 p.m., 3900 Block Elm Grove Rd. Received a 911 call stating 79 year old male patient was having heat related problems. Responded to call with Scott & White EMS. Arrived on scene and Scott & White EMS handled patient care. Patient declined to take transport to Hospital. SFD and Scott & White cleared and left scene. 2 units, 3 personnel.  
 May 24  
 8:58-9:34 a.m., 1700 Block Old Mill Rd. Out in reference to a patient with difficulty breathing. Arrived on scene to find patient laying in bed. Obtained and charted vitals. Scott & White Medic arrived on scene and assumed patient care. Assisted with loading patient for transport. 2 units, 2 person-

nel.  
 11:38 a.m.- 12:22 p.m., I-35 at 277 SB. Out in reference to a victim of Assault. Arrived on scene to find patient standing outside of vehicle with minor scratch to her right foot. Cleaned and bandaged the affected area. Scott & White Medic arrived and assumed patient care. No transport. 2 units, 3 personnel.  
 5:36-5:50 p.m., 10300 Block Hodge Canyon Rd. Out for a fire alarm going off. Arrived on scene to find a single story structure nothing showing from exterior. Made contact with residence and they advised everything was okay, burned some food on stove. No other hazards. 2 units, 4 personnel.  
 May 25  
 11:35-11:52 p.m., 200 Block Prairie Dell Ch. Rd. Called for an unconscious female in car. Arrived on scene had one female asleep in car. Came off highway just to sleep. Checked ok and cleared. 2 units, 5 personnel.  
 10:53-11:06 a.m., 800 Block N. Stagecoach Rd.

Out for a psych patient. Arrived on scene to find a lot of law enforcement on scene and Scott & White Medic on scene with patient care. Had no patient contact and no need for any further assistance. 2 units, 2 personnel.  
 May 26  
 1:27-2:06 p.m., 283 SB I-35. Out for a Motor Vehicle Accident with no injuries. DPS and BC Constable on scene. Helped with traffic control and applied absorbent to oil spill. Wrecker arrived on scene and loaded vehicle and we cleared up absorbent. Highway was reopened and all units cleared. 2 units, 3 personnel.  
 May 27  
 1:28-2:09 a.m., 282 NB Rest Area. Out for a patient that was dizzy. Arrived on scene with Scott & White EMS and assisted them with patient. Patient was loaded and transported. 1 unit, 1 personnel.  
 11:31-11:39 p.m., 100 Block Mill Creek. Out to smoke in the area of Mill Creek Drive. Arrived on scene to find fog everywhere no smoke and no

smell of any smoke. No hazards found and all units cleared. 3 units, 9 personnel.  
 May 28  
 6:20-6:47 a.m., 7500 Block FM 2268. Out priority 3 for a 91 year old female with General Illness. Went en route and arrived on scene with medic. Medic had all patient care. Patient was moved to stretcher and into ambulance. Medic transported patient. 1 unit, 2 personnel.  
 11:32 a.m.- 12:16 p.m., 11500 Block Stinnett Mill Rd. Out priority 3 for a 73 year old male with low BP. Went en route and arrived on scene to find the patient sitting in a chair. Patient was aware. Patient was placed on monitor and vitals were taken and charted. Patient history gathered. Patient was monitored until Scott & White Medic arrived on scene and took over patient care. Patient was moved to stretcher and into ambulance. Medic transported 1 patient. 1 unit, 3 personnel.  
 May 28  
 1:50-1:54 p.m., 1400 Block Royal St. Out for a

lift assist. Went en route but was advised by center that patient was picked up by neighbors and advised they needed no further assistance. All units canceled. 1 unit, 3 personnel.  
 6:35-6:58 p.m., 279 SB I-35. Out to a car fire at the 279 SB. Arrived on scene to find the vehicle fire at the 275 SB with Jarrell VFD on scene, checked with Jarrell FD with assistance, and they needed none. 5 units, 6 personnel.  
 10:19-10:49 p.m., 7700 Block FM 2484. Out for a 77 year old female with a nose bleed. Went en route and arrived on scene to find the patient sitting in a truck with her nose actively bleeding. Pressure was applied along with an ice pack. Patient history was gathered and vitals were taken and charted. Patient was monitored until Scott 7 White arrived on scene and took over patient care. Patient was moved to the stretcher and into the ambulance. Medic transported 1 patient. 3 units, 7 personnel.  
 May 29  
 8:36-9:19 a.m., 11500

Block Stinnett Mill Rd. Out for a psych patient. Arrived on scene to find two BCSO on scene with patient. Patient was calm for FD. Patient had been given two sleep aid meds prior to our arrival. Gathered patient history. Scott & White Medic arrived on scene and took over patient care. Scott & White transported. 2 units, 3 personnel.  
 11:53 a.m.- 12:43 p.m., 200 Block Chisholm Trail. Out priority 1 for a 45 year old male victim of a fall with AMS. Went en route and arrived on scene to find the patient laying on the floor aware. Patient stated he slipped out of bed and fell and his neck was hurting. Patient was placed in a c-collar with spine held. Patient denied any loss of consciousness. Patient was placed on monitor and vitals were taken and charted. Scott & White Medic arrived on scene and took over patient care. Assisted moving the patient to the stretcher and into the ambulance. Scott & White transported. 2 units, 3 personnel.

# Salado Police Department Incident Report May 23-27

May 23  
 2:51 p.m., Salado Creek Jewelers. Criminal Mischief, possible Criminal Mischief at above location. After speaking to the owner of the property she did not want to file a report.  
 May 24  
 9:01-9:03 a.m., 1700 Block Old Mill Rd. Agency Assist, EMS assist at the above location. 1 female transported.  
 12:41 p.m., 277 South. Agency Assist, call to assist Bell County on a domestic that was taking place in the Highway at the above location. BCSO arrested on male. Clear.  
 2:48 p.m., Pace Park. Disorderly Conduct, call for above location for a fight in progress. Arrived and it was mutual between both parties. Citations were given to both individuals, clear.  
 May 25  
 8:19 p.m., 1700 Block Club Circle. Citizen Contact, caller states family member came to residence earlier and was not wanted on the property. Criminal Trespass option was explained. Clear.

1200 Block Baines, Theft. Dispatch advised to call a number in reference to a theft of a lawn mower. Individual was unaware of a problem, went by the address. A male subject was not aware of it.  
 May 26  
 4:55-5:00 p.m., 313 N. Stagecoach Rd. (Police Department). Criminal Trespass. Walk-in complainant wishes subject C/T'd from residence due

to series of altercations. Subject located and a C/T warning was issued.  
 6:25-6:28 p.m., Chisholm Trail at Stagecoach Circle. Stray, caller concerned about a fawn left alone. Checked area. Unable to locate. Clear.  
 6:36-6:37 p.m., 771 N. Stagecoach Rd. (Bee's Antiques). Suspicious Circumstance, caller observed subject backed up to store in a truck. Stated they be-

lieved a theft was occurring. Arrived on scene to find subjects were in the process of selling antiques to the owner, also on scene. Clear.  
 May 27  
 7:06-7:17 p.m., 1300 Block Walker Circle. Miscellaneous, deceased deer hung on fence. Removal options explained. Clear.  
 10:21-10:26 p.m., Fireworks in area. Could be heard, but not found. I had

been looking for them prior to the call and continued to check the area after the call. No firework activity in the city limits.  
 11:32-11:35 p.m., 100 Block Mill Creek Dr. Fire, passerby states structure fire in the area. Believed so due to haze in the air. Checked area with SVFD. "Haze" is fog that developed due to air temperature drop. Call unfounded.  
 May 29

6:32-6:44 p.m., 300 Block Pace Park. Injured deer or animal. Dispatched in reference to an injured deer. They found a baby deer a new born deer in the park. I tried to contact a game warden but none were available, I advised them to release the deer back into the woods and let the mother find it.

# White Grubs

FROM, 4D

however, applications made too early may break down before white grubs are present. To avoid treating too early, it is usually best to put out an insecticide after the June beetle mating flights have ended.

Effective prevention products include the active ingredients chlorantraniliprole, cyantraniliprole, clothianidin, imidacloprid, or thiamethoxam. There is also combination products that contain bifenthrin

mixed with clothianidin or imidacloprid. Although these treatment can provide some control after damage appears, they are most effective if applied early.

The members of Texas

A&M AgriLife will provide equal opportunities in programs and activities, education, and employment to all persons regardless of race, color, sex, religion, national origin, age, disability, genetic

information, veteran status, sexual orientation or gender identity and will strive to achieve full and equal employment opportunity throughout Texas A&M AgriLife. The Texas A&M University

System, U.S. Department of Agriculture, and the County Commissioners Courts of Texas Cooperating.
