## Fireworks at Mill Creek

Mill Creek Country Club invites you to its third annual Independence Day celebration, culminating with a professional fireworks show over the pond and fountain. The daylong event will be July 2, so that otherwise working families can participate.

Bring lawn chairs and come early for good seats for the fireworks display which will start at about 9 p.m. when it gets dark enough.

Billy Helm invites Saladoans and visitors to the annual event, started three years ago by the new ownership group of Mill Creek.

Prior to the fireworks going off at dark, Mill Creek is providing free live music 6-9 p.m. July 2.

The day-long event includes a Golf Tournament teeing off at noon on July 2. Sign up at least two hours beforehand at the Pro Shop.

The Mill Creek Grill will also have Hamburger Plates for \$10 including soft drink and Hot Dog Plates for \$8 including soft drink available for purchase during the evening.

“We appreciate our corporate sponsors for this event,” Helm said. “They help us to make it a better event for Salado.”

If you would like to be a sponsor or contribute to the community event, you can mail a payment to Mill Creek Golf Course, P.O. Box 159, Salado, TX 76571 or go by the Pro Shop.

## Annual picnic at SHS July 4

The annual Salado Independence Day “pot-luck picnic” will be held in the Salado High School auditorium, hosted by the Salado Historical Society.

The doors will open at 1 p.m. and everyone is encouraged to come to visit with old friends and meet new ones, enjoy lots of food and a rip-roaring patriotic music program provided by the Salado Community Chorus.

Also on the agenda will be information about progress on the changes for the Central Texas Area Museum, presented by the interim curator, Coleman Hampton, and on growth in the community. This will be the first time that the event will be held in the cafeteria of Salado High School, which is located at 1880 Williams Rd. (Hwy 2484), Salado.

Salado Community Chorus has been providing musical programs in the Central Texas area since 1994. The musical program for the picnic will include a Tribute to the Armed Forces and a sing-along of several familiar patriotic songs. The Historical Society encourages all active-duty personnel and veterans, and their families to attend the picnic.

Other performances by the Community Chorus this year include the Spring Concert at First Baptist Church, Christmas in October at The Venue, the Community

Thanksgiving Service, and a Christmas Concert at FBC. Currently, Jim Mohon is the choral director, David Kaufus is the pianist and Lezlie Mann is the president of the organization. For more information about the chorus, go to [www.saladochorus.com](http://www.saladochorus.com).

“There are many changes happening in the Village of Salado that affect the way we live and the way our beautiful community is perceived throughout the State of Texas and beyond. We are seeing progress with road construction; the Stagecoach Inn, a longtime landmark and tourism draw is being renovated and will be re-opening soon,” said Historical Society president Sandi Wicker. “Several businesses are relocating and expanding; and the Central Texas Museum is being reorganized and restyled.”

Recently, Hampton, who holds an M.A. in Museum Studies, was employed to begin evaluating, organizing, and implementing changes to the CTAM. He will be present at the picnic to share the vision of the museum board and staff.

The Salado Historical Society sponsors the annual 4th of July Picnic and will be providing fried chicken and drinks. Children are welcome and guests are asked to bring a side dish, salad or dessert.

## DPS officers will be out in force this weekend

AUSTIN – A prisoner in his own body. This is how Sean Carter describes his life following his fateful decision 11 years ago to get into a vehicle driven by a drunk driver. When the driver slammed into a tree, then-22-year-old Sean was left severely injured and unable to walk or talk.

“Don’t drink and drive,” Sean said, via the aid of an iPad. “And please, don’t make my mistake of riding with someone who has been drinking. If I

knew then that my decision would affect the rest of my life, you can bet I would not have gotten in that car.”

Today, Sean continues his life’s mission of warning others about the consequences of drinking and driving by sharing his story through the Texas Department of Transportation’s “Plan While You Can” campaign. The campaign is intended to save lives and decrease alcohol-related crashes all year

long, but with a particular emphasis during holidays such as the upcoming Fourth of July weekend. During the 2015 Fourth of July weekend, there were 355 alcohol-related crashes in Texas, resulting in 19 fatalities and 32 serious injuries.

Texas Department of Public Safety officers will be out in force this holiday weekend to insure Texas drivers don’t drive drunk.

“Drinking and driving is stupid!” said Texas

Transportation Commissioner Jeff Moseley. “The concept is simple: Save your own life and the lives of others by planning for a sober ride.”

The “Plan While You Can” campaign – which coincides with an increase in drunk driving enforcement along with local no-refusal efforts – includes a multi-city tour that stops at shopping malls in Austin, Fort Worth, Houston, Lubbock and Waco. Shoppers are invited to test

their driving skills during a two-minute interactive game that simulates sober-to-impaired driving conditions, including difficulty in steering, delayed reactions and blurred vision. In addition, two large video monitors will allow mall shoppers to watch 30-second videos from the Faces of Drunk Driving website featuring Sean’s story as well as other stories from drunk driving crash victims in Texas.

Drivers under the influ-

ence of alcohol can face up to \$17,000 in fines and legal fees, the loss of a job and other costs. TxDOT strongly encourages everyone to plan for a sober ride before going out.

Visit [SoberRides.org](http://SoberRides.org) to find alternatives to drinking and driving, such as:

- Calling a taxi or using a transportation app on your smartphone.
- Asking a sober friend or family member for a ride home.
- Spending the night.

An Open Exchange of Ideas

## Putting forth an optimistic future; Happy 4th of July

Britain voting to leave the European Union was extraordinary. Listening to news-talk shows and Internet scanning, a variety of reasons emerged – security and financial stability among the top. There was another reason, similar to our July 4th -- Britain declared their Independence. It was a breaking-away from the status quo; a bold, emotional act that declared: “for the sake of country, we will go it alone if necessary.”

Such extraordinary measures are necessary when:

people are unsure; confidence has to be demonstrated;

people are vacillating; certainty has to be restored;

there is hesitation; action has to be taken;

weakness is evident; strength has to be applied; floundering is symp-

### Mayor Skip Blaccett

omatic; expertise has to be sought;

cowardice is evident; courage has to come forward;

cynicism is written or spoken; optimism must take hold; and

there is a conviction that the future will be brighter than ever.

Do you see any similarity between Britain and Salado? (Drucker)

See the big picture and hear the same words as above: “For the sake of our Village, we will not accept status quo; we will go forward with optimism; and face our future with confidence.

In two months, fol-

lowing the May election, Salado has: made major changes in the Ordinances; seen I-35 construction progressing on schedule; reached the final stages of the sewer and waste water treatment plans; made road repairs; celebrated new stores opening; observed real estate markets flourishing; worked with developers and discussed annexation; tackled environmental concerns; reviewed and revised security policies; and placed emergency procedures in effect.

This year, Salado celebrates July 4th with a strong voice and a conviction that optimistically declares “a bright future and an overwhelming desire to make it extraordinary.”

That is and will always be the spirit of Salado -- strong and powerfully independent. Happy 4th of July.

## Heed Trump’s Warning

One of Donald Trump’s political skills is giving widely condemned speeches.

His post-Orlando jeremiad fit the pattern. There is something so inherently inflammatory in Trump’s delivery that he could read the Gettysburg Address and some listeners would wonder how he could possibly say such a thing.

The kernel of Trump’s speech was rather obvious: “The bottom line is that the only reason the killer was in America in the first place was because we allowed his family to come here. That is a fact, and it’s a fact we need to talk about.”

The reaction of much of the opinion elite was nearly instantaneous: Whatever we do, let’s not talk about that fact.

Countless articles have been written on how much better we are at assimilating Muslim immigrants than Europe is, usually with back-patting over our openness and fluidity as a society in contrast to the self-defeating insularity of a country like France.

This may be true, but the assumption that we have the magic formula is under stress now that we’ve repeatedly suffered mass killings by second-generation immigrants.

The Islamic State

### Rich Lowry

model of inspiring “lone wolves” already here is dependent on loosely assimilated American Muslims susceptible to its hateful appeals. Disturbingly, it is finding takers.

In six months, terrorists have killed more than 60 people on our shores; two of the perpetrators were the sons of immigrants, and one an immigrant herself.

One of the reasons we have avoided the problems of a France may be sheer numbers. France has 50 percent more Muslim immigrants than we do, even though it is a much smaller country. Only 1 percent of the U.S. population is Muslim; 7.5 percent of the French population is.

On the current trajectory, we will take in 1 million Muslim immigrants or more over the next decade. It can’t be out of bounds to ask whether that’s a good idea.

Or it shouldn’t be. The immigration debate is so encrusted with unexamined pieties that any suggestion that we reduce the number or the composition of the current immigrant flow is taken as an attempt

to kneecap the Statue of Liberty.

At bottom, the Trump doctrine on immigration is that our policy should serve our values and interests, and the status quo fails on both counts. That said, his proposed Muslim ban is a mistake. It communicates a hostility to all Muslims and, besides, is unworkable.

Responsibility for Omar Mateen’s heinous act is all his own, but it is certainly relevant that his Dear Old Dad supports the Taliban and hates gays. He is exactly the kind of immigrant you would hope to deny the priceless privilege of coming here.

Mark Krikorian of the Center for Immigration Studies proposes to reduce legal immigration. If we eliminated the visa lottery, tightened the criteria for family unification and accepted fewer refugees, we would diminish the number of low-skilled immigrants who have trouble thriving here, and at the margins, the number of new Muslim entrants.

Donald Trump does the cause of immigration restriction a disservice by rendering it in caricature. But the questions he raises won’t go away, and they shouldn’t.

## Readers have deer ordinance and future on their minds

### To the Editor:

Recently the Board of Alderman passed a resolution prohibiting the feeding of deer within the boundaries of the Village. I can only assume from reading the ordinance that the U.S. Constitution which requires “presumption of innocence” in criminal matters, has been amended as the ordinance states “a person shall be presumed to have fed deer, or made food available for consumption if that person places food, or causes food to be placed, on the ground, outdoors or on any platform that stands fewer than five feet above the ground,” a provision that appears to be clear presumption of guilt. Perhaps the Alderman and Mayor should carefully peruse the First, Fourth, Fifth and Sixth Amendments to the Constitution before attempting to prosecute anyone for violation of this ordinance.

I am further concerned as to how law enforcement officials plan to locate and cite individuals for violation of the ordinance. Has the Village also amended the provisions in the Constitution which deal with illegal search and seizure? Will police obtain a search warrant for suspected violations or will they feel free to enter private property to determine that deer food has been placed on the ground in the backyard?

## Your Voice

Letters to the Editor

While I do not agree with the prohibitions against feeding deer, I believe that if such a law is passed, it should conform to the protections of the Constitutions of the United States and the State of Texas.

Respectfully,  
Dr. Paul Cromwell  
Salado, TX

### To the Editor:

As I was taking my early morning walk in our beautiful village listening to the flow of the water in the creek, hearing the birds sing, admiring the beautifully manicured yards along the way and yes, of course, seeing a few deer, I could not help but reflect on GOD’s great blessings.

On my lifelong journey to determine how to take care of this body GOD so wonderfully made for each of us, I embarked on a second career to learn and study how to best nurture His creation. Over the years, lifestyle advancements have served in some respect to make life easier but in many respects have given us choices which are destroying His creation. My first challenge was to learn how to aid and re-

plenish the body with natural resources to offset our negative lifestyle choices. When I decided to open my natural health center in Salado almost 20 years ago, I had two primary considerations. I wanted a source I could trust to consistently supply the highest quality nutritional support and I wanted access to ongoing scientific research and education. Twenty years ago I partnered with Nature’s Sunshine, and I continue to be pleased with the quality, cutting edge scientific research and product development offered by this soon to be 45 year old company.

While getting in my 60 minute “lifestyle choice” walk, my mind was clear and open to reflection. This morning I was thinking about our food choices. As I was enjoying the blessings of the cool morning walk, I thought about how often when we bless our food, we ask it to be blessed for the nourishment of our body. Wow! How often is nourishment a consideration when we choose or put food in our mouth? What other choices might we be overlooking? Perhaps if we make mindful choices concerning our

## New Alamo license plate now available

### Sales to benefit Alamo preservation and education programs

AUSTIN – Today Texas Land Commissioner George P. Bush and Texas State Representative Lyle Larson (District 122-San Antonio) announced the availability of a new Alamo license plate for all Texans! With each purchase, \$22 of the license tag price will go directly to the Alamo to pay for preservation efforts and historical educational programs.

“The creation of this new license plate coincides with a new and exciting chapter in the Alamo’s history as we continue to

make great strides in the historic master plan process,” Commissioner Bush said. “I commend Rep. Larson who wrote the legislation that has made this specialty plate a reality. Not only will this license plate enable Texans

across the state to show their pride for the Alamo, the Shrine of Texas Liberty, but it will also provide valuable funds for continuing preservation work and valuable educational resources so that we can continue to teach visitors

about the historic events that occurred on this sacred site.”

“There are a lot of folks who take pride in Texas’ heritage, and the Alamo is the cradle of Texas independence,” said Rep. Larson. “This will give folks the opportunity to embrace that concept when they purchase their license plates and support the restoration of the Alamo for future generations.”

## Daughters of the Republic of Texas settle with General Land Office; State relinquishes all claims to historic archives as Daughters move forward

(AUSTIN, Texas) — The Daughters of the Republic of Texas and Texas Land Commissioner George P. Bush have reached a legal settlement to their yearlong dispute over an archival library housed on the Alamo grounds since 1950.

"The Daughters held fast and our prayers were answered," said Dr. Betty J. Edwards, president general of the Daughters of the Republic of Texas. "With this behind us, we can refocus on our mission to ensure the next generation of Texans understand and appreciate our unique

history as a sovereign republic."

As a result of the settlement, the General Land Office dropped any ownership claims to the Daughters of the Republic of Texas Library Collection. The collection closed to the public on June 1 to prepare for its move from its historic home adjacent to the Alamo Shrine to Texas A&M-San Antonio. Through the agreement, Bush also agreed to reimburse the Daughters \$200,000 for legal expenses.

Shortly after taking office in 2015, Bush ordered the Daughters and their

staff to be locked out of the library after he terminated their management contract for the Alamo. DRT staff were only able to reenter the library after the Daughters received a temporary restraining order against Commissioner Bush and the GLO.

Lamont Jefferson, who negotiated the settlement on behalf of the Daughters of the Republic of Texas, said he was pleased with the result.

"The Daughters of the Republic of Texas are a respected organization of women who honor and preserve our state's history. This lawsuit was about

protecting individual liberties against the overreach of the state," Jefferson said. "This settlement will allow the Daughters to return to their work telling the story of Texas, which they have done so well now for almost 125 years."

Edwards said the more than 7,000 members of the Daughters of the Republic of Texas are up to the task. "We may just be a non-profit organization of women, but we are Texas women," she said. "We will persevere, and we will succeed."

## LETTERS TO THE EDITOR CONTINUED FROM PAGE 3A

health or other areas of our life we will be able to better enjoy the life GOD has planned for us.

For me, it is evident there is no better time than now for me to rethink my lifestyle choices. Whether just needing to remove a little extra weight, manage my daily stress level better or fight one of the

many health challenges identified with aging or metabolic syndrome, I have learned it has been scientifically proven the answer is in mindful holistic lifestyle choices.

Several years ago I had a sign in front of my store attesting to Salado's rich history and unstoppable future. The future is near.

Our Mayor has advised us we are about to have our rendezvous with destiny. Are we ready? My friends, time to be honest, the last few years have been tough on those of us who have hung on. My business isn't the same it was 20 years ago. Our business arena has changed and is about to change again. Like

many of you I am considering how to best prepare for the next part of the journey.

When I was in high school, I remember sometimes having summer school like taking Drivers Education to get my drivers license at an earlier age or getting extra credits in home economics by documenting the hours spent on improving my home environment. I even taught summer school the year I graduated. Here I go again some 50 years (ouch) later engaged in summer school to adjust my lifestyle while teaching others holistic living choices.

While some of us are struggling others have perhaps become complacent. What is important is We are Salado. Every one of us make up who we are. Weary though we may be, together we can hold each other up and march boldly in to the next phase of our history embracing our long awaited destiny.

Sincerely,  
CJ Harbuz

line of play that would have assured his success and did not depend on any luck at all. After drawing trumps, he should have attacked clubs, not hearts, by leading a club from his hand at trick four. The purpose of this play would be to establish his fourth club, which eventually would provide a parking place for one of dummy's hearts. This approach would have rendered the location of the A-Q of clubs and K-J of hearts totally irrelevant. If West took the first club and led a heart, declarer would finesse the queen, after which the defense could not score a second heart trick regardless of what East did next.

The Greater Roadrunner raises its crest

**The Greater Roadrunner prefers to stay grounded**

The dynamics of this generation are quite a bit different from just a couple of decades ago, including Saturday morning cartoons. My children have difficulty grasping the concept of watching cartoons just once weekly, and they have no real concept of the epic struggle of good (prey item) against evil (predator) as depicted by Warner Bros. Of course I am referring to the Coyote and the fascinating Roadrunner.

The Greater Roadrunner (*Geococcyx californianus*) is a common bird throughout much of the southwestern portions of the United States, ranging from western Arkansas westward to northern California. From there it occurs throughout much of the Chihuahuan Desert and Mexican Pla-

teau regions of Mexico. It can be observed throughout the entire state of Texas, barring a small swath of the southeastern-most counties. It is not a migratory species, meaning that it occurs in its Texas range year-round.

This attractive and subtly colorful species of bird is moderately large, with a body length of approximately twenty four inches, while the wingspan can approach six inches more. The breast coloration is generally a light tan to yellow, with numerous vertical dark and light streaks. These streaks fade away underneath the breast area. The back feathers are colored similarly to the breast area, but tend to be much darker overall. The feathers on the top of the head, or crest, are very shaggy in appearance. This comical bird has a tendency of raising these crest feathers, giving it the look of an '80's "hair band" front man. There is a patch of featherless skin behind the eye that is usually blue in coloration, although it can occasionally be candy

apple red. The tail is long, and is often raised high and slowly lowered when the bird is irritated. The beak is heavy and dark, while the legs are long and thin, but are very strong.

Roadrunners are commonly seen while foraging for food along roadways, primarily while on the ground or perched on a fencepost. They feed on a number of invertebrate creatures, as well as smaller vertebrates. Documented food items include such animals as grasshoppers, beetles, lizards, snakes (including venomous rattlesnakes), mice, kangaroo rats, bird eggs, and smaller birds. They will also occasionally feed upon fruits and seeds, particularly prickly pear cactus tunas.

These birds typically prefer to live a solitary life except during mating season, the timing which can vary annually depending on weather conditions. This species of bird is monogamous, and it is widely believed by most naturalists that Roadrunners will mate for life. One to two broods per year are

produced, with the nest containing two pale yellow eggs being constructed near the ground in cactus or shrubs. Incubation time is only twenty days, and the young are unable to take care of themselves at hatching. Both sexes will feed them during the next two weeks as they learn to hunt for food and to evade predators.

Roadrunners are somewhat bashful birds, and usually will opt to run from perceived threats rather than fly. When they do take flight, it is with several fast wing beats followed by a low glide. They are seldom seen very far above the ground, preferring to perch on rocks and fence posts in dry, open spaces. The habitat of choice is grasslands, pasturelands, and rocky desert areas.

Roadrunners are a common to abundant bird throughout their range in Texas. The best place and time to observe them is during mid-morning or late afternoon drives. Look for them as they perch along the roadside, or as they dart across the roadway. Hopefully, seeing one of these magnificent creatures in person will elicit memories of those care-free Saturday mornings of yesteryear.

# TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

## NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN WATER QUALITY PERMIT RENEWAL

PERMIT NO. WQ0010884001

**APPLICATION.** Village of Salado, P.O. Box 219, Salado, Texas 76571, has applied to the Texas Commission on Environmental Quality (TCEQ) to renew Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0010884001 (EPA L.D. No. TX0054682) to authorize the discharge of treated wastewater at a volume not to exceed a daily average flow of 50,000 gallons per day. The domestic wastewater treatment facility is located at 401 South Stagecoach Road, Salado, in Bell County, Texas 76571. The discharge route is from the plant site to Salado Creek. TCEQ received this application on May 31, 2016. The permit application is available for viewing and copying at Salado Village Hall, 301 North Stagecoach Road, Salado, Texas. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.

<http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=30.943055&lng=-97.538055&zoom=13&type=r>

**ADDITIONAL NOTICE.** TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. **Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.**

**PUBLIC COMMENT / PUBLIC MEETING.** You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

**OPPORTUNITY FOR A CONTESTED CASE HEARING.** After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing.** A contested case hearing is a legal proceeding similar to a civil trial in state district court.

**TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST:** your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and, the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.**

**MAILING LIST.** If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

**AGENCY CONTACTS AND INFORMATION.** All written public comments and requests must be submitted to the Office of the Chief Clerk, MC 105, TCEQ, P.O. Box 13087, Austin, TX 78711-3087 or electronically at [www.tceq.state.tx.us/about/comments.html](http://www.tceq.state.tx.us/about/comments.html). If you need more information about this permit application or the permitting process, please call TCEQ Public Education Program, Toll Free, at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040. General information about TCEQ can be found at our web site at [www.tceq.texas.gov](http://www.tceq.texas.gov).
